OPG #118bis Meeting Minutes

Author:	Tom Van Pelt	**Email:**	tpelt@gsma.com
		Tel:	+32 479 23 28 46
Date:	13/01/2023	**Time:**	12:00 – 13:00 GMT
Subject:	OPG #118 Meeting Minutes		
Attendees:			
GSMA *(replacing Chair)*	Tom Van Pelt	tpelt@gsma.com	
Attendees	Fabiola Lopez	fabiola.lopez@americamovil.com	
	Gao Chen	cheng96@chinaunicom.cn	
	Liu Hui	liuh1053@chinaunicom.cn	
	Jinsook Ryu	jinsook.ryu@dish.com	
	Magnus Olsson M	magnus.m.olsson@ericsson.com	
	Bart van Kaathoven	bart.van.kaathoven@ericsson.com	
	Tom Van Pelt	tpelt@gsma.com	
	Roya Rezagah	roya.rezagah@huawei.com	
	Yajie Hu	huyajie1@huawei.com	
	Uli Kleber	ulrich.kleber@huawei.com	
	Niranth Amogh	namogh@huawei.com	
	Nishant Gupta	gnishant@qti.qualcomm.com	
	Vijay Sangameshwara	s.vijay@samsung.com	
	Jesus Maria Martin Garcia	jesusmaria.martingarcia@telefonica.com	
GSMA Attendees:	Tom Van Pelt	tpelt@gsma.com	
Other Attendees:			
Absent / apologies:

1. GSMA Antitrust Policy and Agenda

GSMA Anti-trust and US entity list statement were noted.

The agenda for the meeting was approved.

2. Reply LS to 3GPP SA6 on Edge Node Sharing

Vijay presented OPG_118_Doc_04 (reusing the document shared in OPG#118), a reply LS to 3GPP SA6 on Edge Node Sharing. Following comments were raised:

- The introductory part with OPG confirming that they agree on the single registration approach is not needed.
    - It was agreed to drop that. Likely the work on EDGEAPP and OP mapping taking place in the MWC Las Vegas 23 release will result in LSs to be sent to 3GPP SA6. If there's a need to highlight anything in this area, that might be covered in those or a separate LS could be sent.
- The part on solutions #43 and #44 addressing the needs of scenario #1 was discussed.
    - Yajie Hu provided a presentation to highlight the difference between OP and 3GPP's concepts for sharing (OP only allows subscriber access to the workload when connected to the network to which the node is shared, while in 3GPP's concept also the subscribers connected to the network that is sharing the node can access).
        - Most impact would be on the deploying of applications though putting limits on who can discover them. The actual procedures for discovery could be similar.
    - Gao Chen shared some figures used in earlier discussions to confirm the understanding.
    - Magnus highlighted that a quote provided by Vijay from section 3.35 suggesting that Edge Node Sharing could be about sharing application services between networks was contradicted by the paragraphs before and after and that that paragraph was overlooked in a previous CR clarifying edge node sharing.
        - Magnus may bring a CR to clarify.
    - There didn't seem disagreement that the solutions cover the scenario mentioned, but from the discussion the response should highlight that 3GPP's scenario 1 is different from edge node sharing because the latter would restrict access to the shared edge node to subscribers attached to the network to which it was shared.
    - It would also be good to highlight the edge node sharing procedures in OPG.04 in the response to 3GPP.

The proposed LS requires a revision. OPG_118_Doc_04 was noted.

#118 Call closed at 13:05 GMT

Action points log

Open action points

Action number	Description	Status	Notes
OPG 108.01	all to reach out to topic owners to provide support on the development of the topics for the MWC Barcelona 23 release where they can.	Open	
OPG 117.03	Tom and Sandra to support Amit and Vikram with the development of section 1 of the MVP PRD	Open	
OPG 117.04	Deepak and Eddy to support Amit and Vikram with the development of section 2 of the MVP PRD	Open	
OPG 117.05	Mohamed, Junpei and Toshi to support Amit and Vikram with the development of section 3 of the MVP PRD	Open	
OPG 118.01	Alex and Cristina to support Amit and Vikram with the development of the section of the MVP PRD on the use case	Open	
OPG 118.02	Tom to set up an ad-hoc call on 13 January to drive alignment on reply LS to 3GPP SA6	Open	
OPG 118.03	Sandra to set up an offline call with Bart and Eddy to discuss updates required to CR0006	Open	

Closed action points

Action number	Description	Status	Notes

Decisions

OPG.118.01	CR0012 is approved
OPG.118.02	OPG_118_Doc_04 (reply LS to 3GPP SA6) is noted
OPG.118.03	OPG_118_Doc_05 (LS from 3GPP SA) is noted
OPG.118.04	OPG_118_Doc_06 (LS from OPAG) is noted
OPG.118.05	CR0009 (OPG_118_Doc_07) is approved
OPG.118.06	CR0006R3 (OPG_118_Doc_09) is noted
OPG.118.07	OPG_118_Doc_10 (MVP skeleton) was noted
