

Wing K. Lee
CEO

Too many connected schools
projects have failed...

Too many learning devices not
making the impact intended...

Education hasn't been able to keep up

But Internet is not new to this generation

KHAN
ACADEMY

coursera

We decided that a platform based approach is needed

So what makes a platform?

A nationwide 4G network is
a start

But content is king

We feel that a cloud based
learning platform is key

As humans, we learn
through interaction

Internet is about interaction and
collaboration

Thus, 4G Internet + Cloud
based learning platform makes
perfect sense to us

Let's take a look

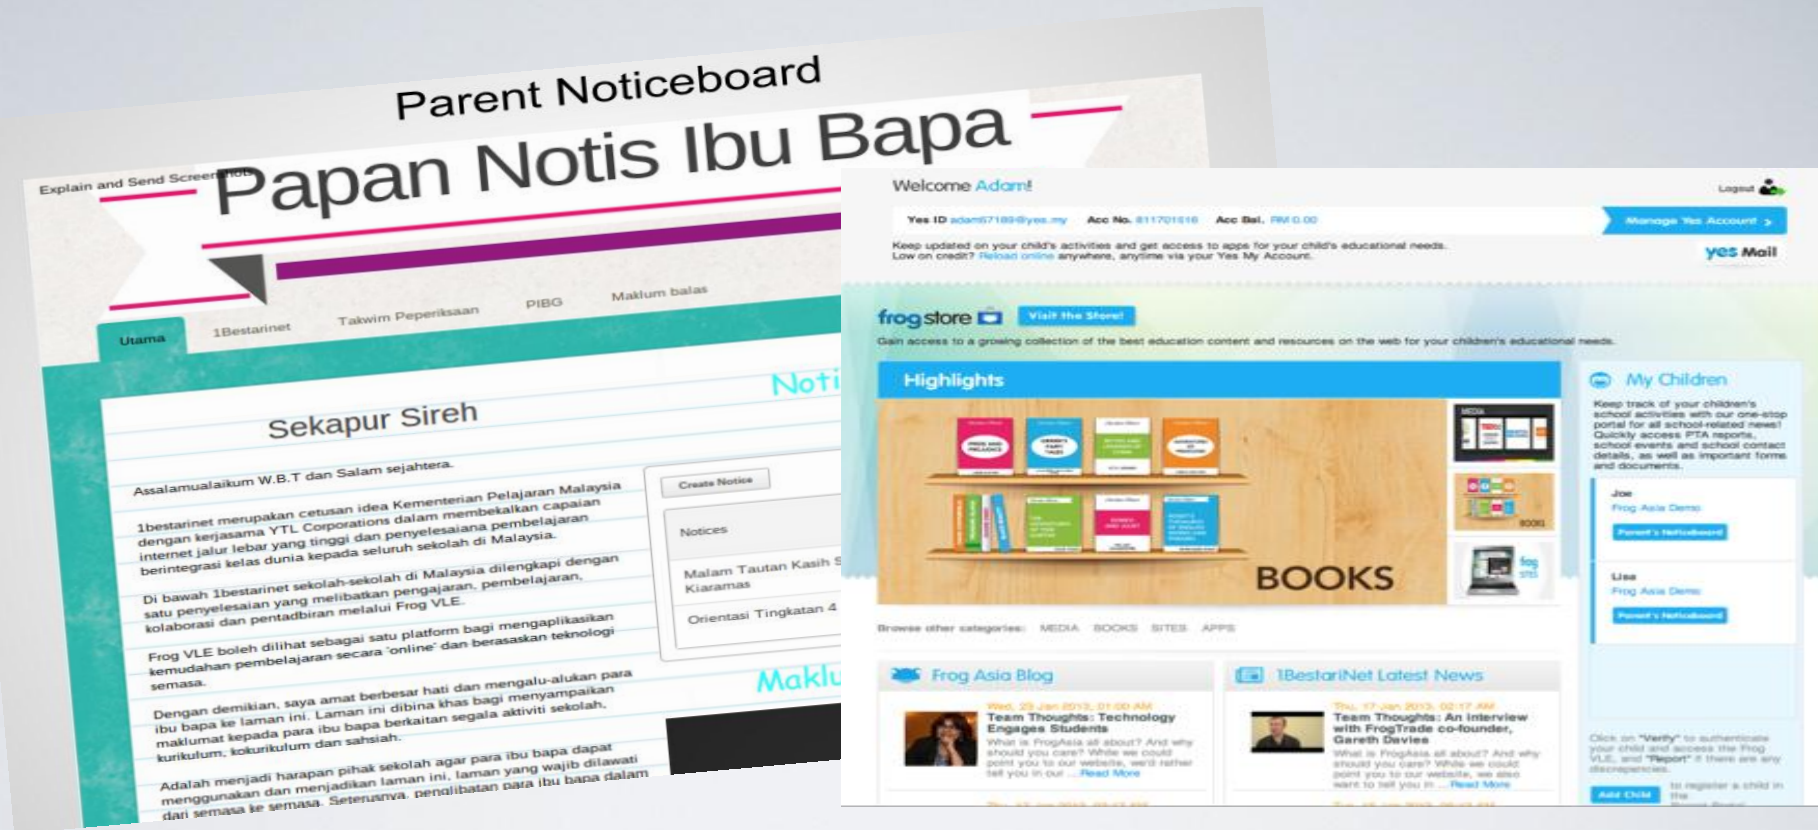

School administrators can organise their school calendars and disseminate school notices via the Internet

Assignments					
				Open	Closed
Open Assignments				Y	gear
Assignment Name	Issue Date	Due Date	Subject	Recipients	Submitted
Fractions	15/10/2012	17/10/2012	Matematik	4E	1 of 4
Peta Malaysia	02/10/2012	03/10/2012	Geografi	4E	4 of 5

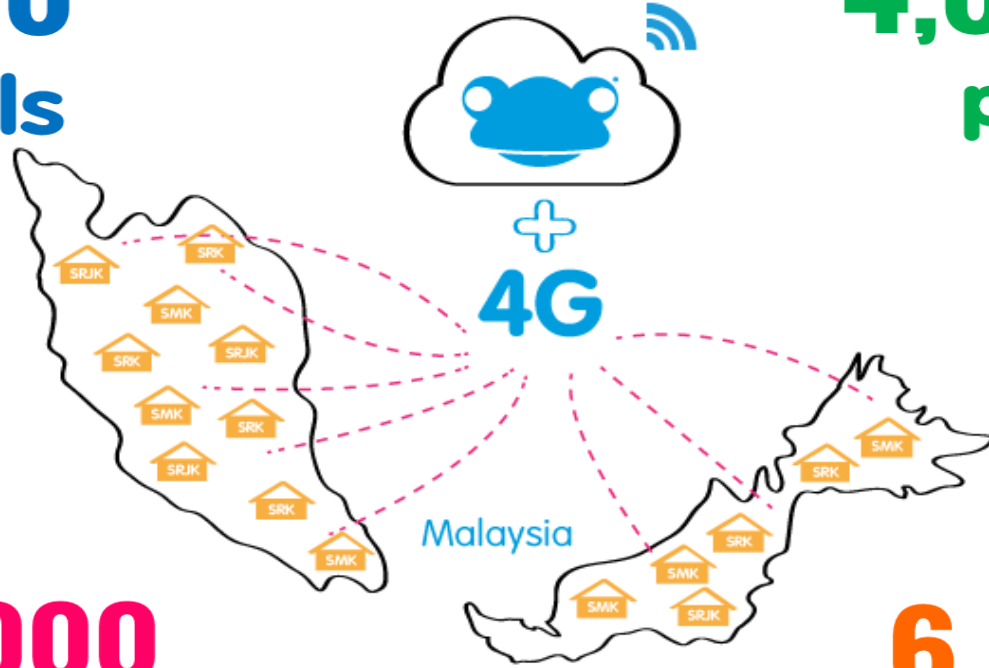

Teachers can assign lessons, tests, and marks virtually
 Students can submit homework and view results through the
 VLE

Parents can view school news and important documents

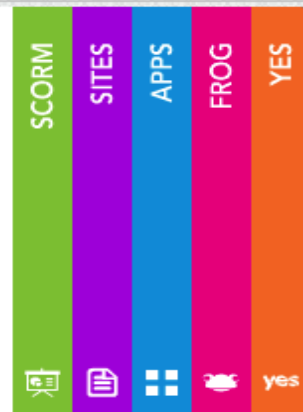

10,000
schools

4,000,000
parents

400,000
teachers

6,000,000
students

But having the right
learning devices is key to
unlocking full value

Chromebook as Enabler for Paradigm Shift

- Superior Total Cost of Ownership
- Designed for cloud computing -> fully inline with VLE
- Mobile from day one

8 seconds boot time	Ready anytime
All day battery life	Covers an entire school day
Stateless	Drastic simplification in distribution and administration
Web-based console	Centralized management
Superb web experience	Macbook-level performance at a fraction of cost
Gets better over time	Only hardware that improves over time

Introducing the New Computer Lab

Enables learning
anywhere; anytime.

Goes where students
are; not the other way
around

1 BestariNet

Best embodiment of our vision thus far

Frog VLE cloud based learning

Largest 4G network for
anywhere; anytime
learning

yesID

Google Apps for content creation &
real-time collaboration

Nationwide secured
cloud based VPN

Thank You!
