

partnerships, regulatory environment and Orange Healthcare

Thierry Zylberberg

Executive Vice President Orange Group

General Manager Orange Healthcare
February 2014

reminder of the 3 areas of Orange Healthcare expertise

services for healthcare professionals

professionals to professionals

remote healthcare monitoring services

professionals to patients

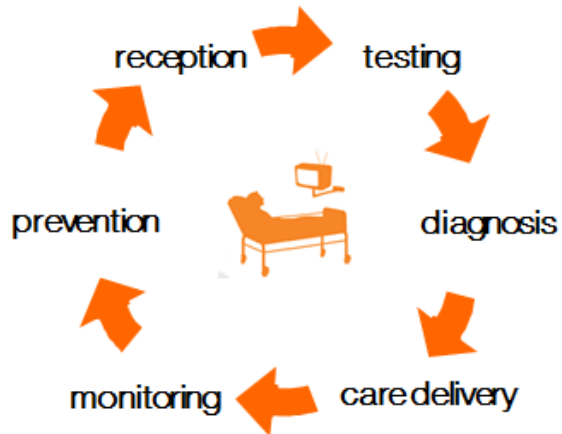

preventive services

patient

Orange Healthcare

Orange sees data as a founding element of healthcare

- data as a **management tool** to measure, analyze, manage quality and security ...
 - data as a **clinical tool** to coordinate, manage the care journey, share patient information data ...
- efficient healthcare requires data management and so will be increasingly connected

Orange: integrator and partner for an end-to-end solution

Orange serving medical data suppliers

- collection
- transfer
- hosting
- restitution
- analysis (BI, big data)

healthcare ecosystem

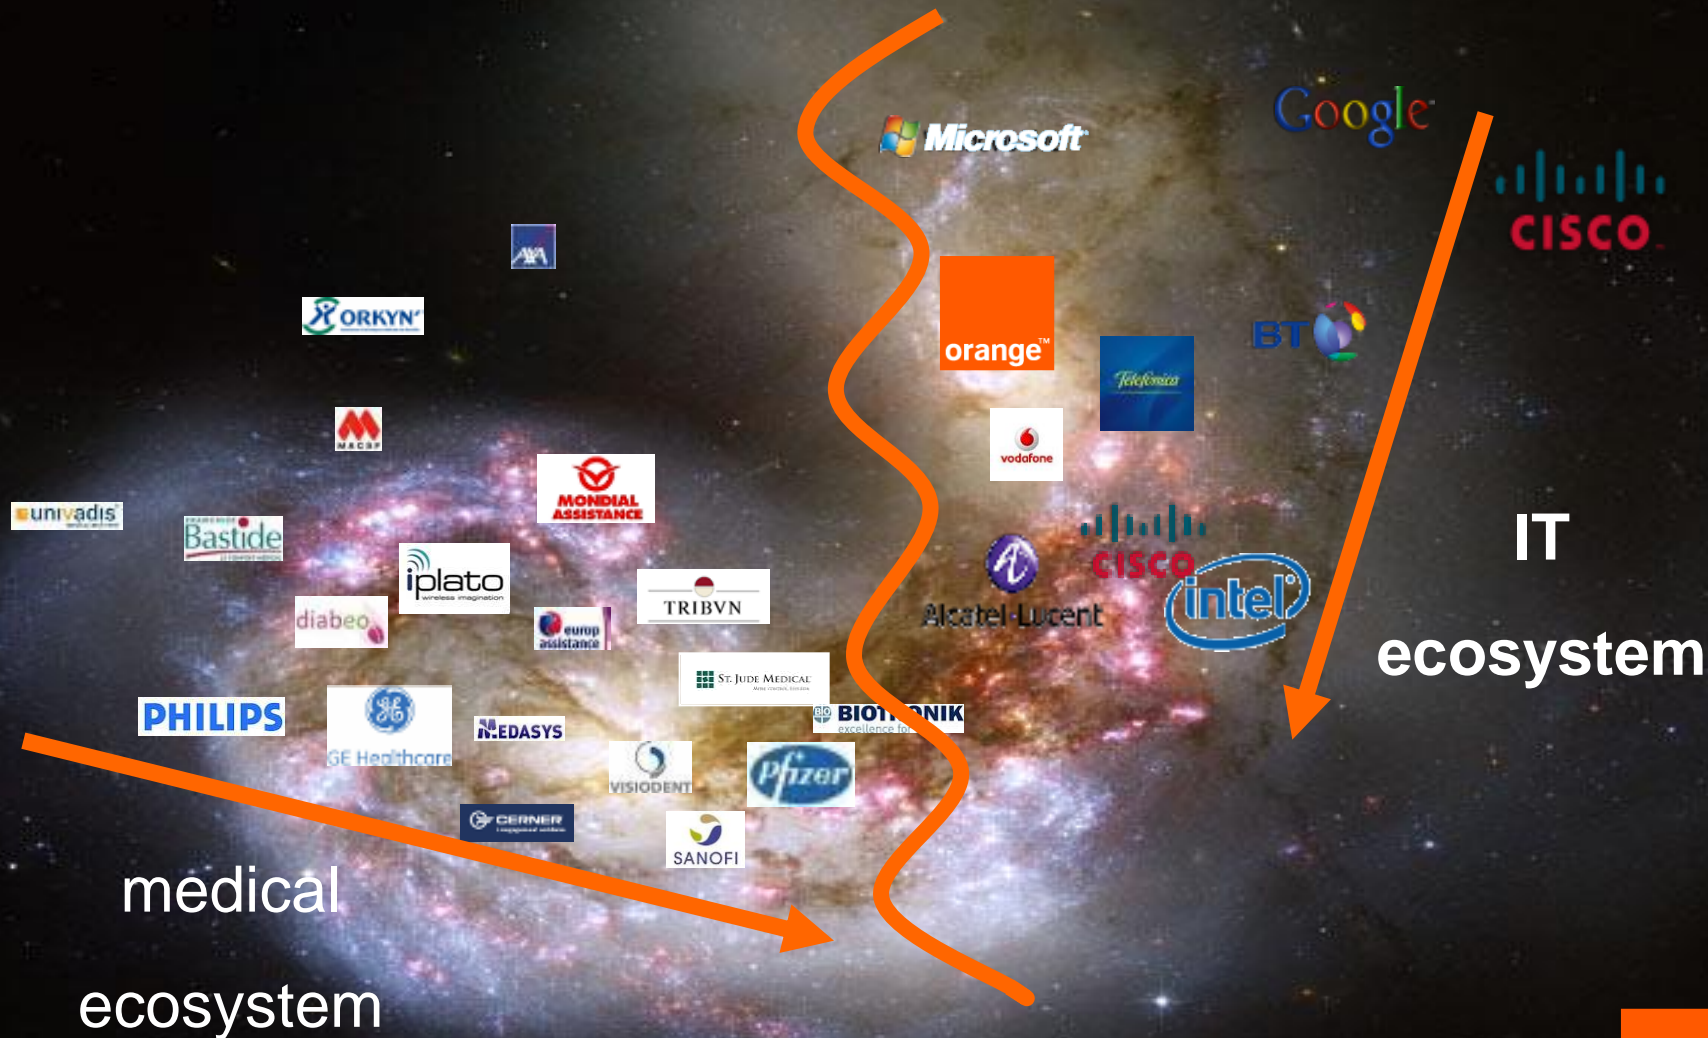

- HCP
- modalities
- patients

Orange

- medical software
- devices ...

ehealth, the intersection of 2 ecosystems

regulation challenge

$$1 + 1 = 3$$

DM regulation security regulation

problem: monitoring of chronic patients

solution

~~M2M~~

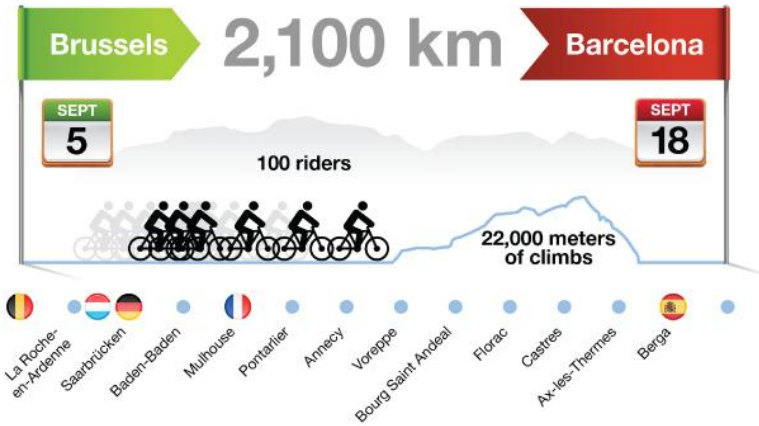

~~Medical Device~~

new value chain

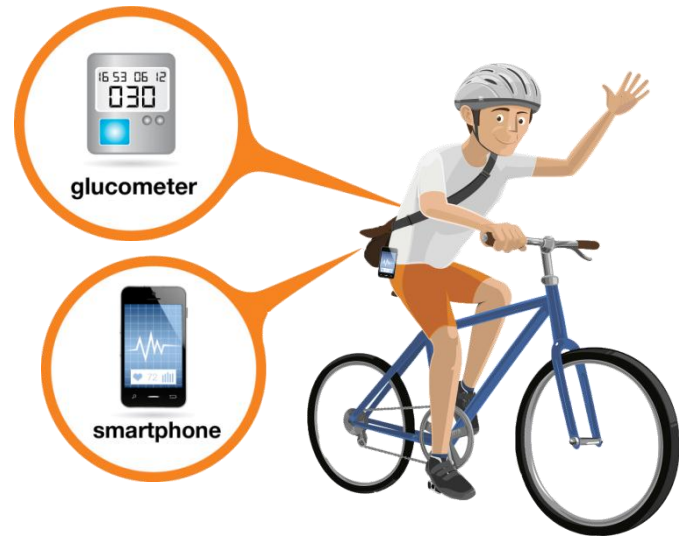

mhealth Grand Tour 2013

real time health monitoring for riders with diabetes

connected medical device platform for collecting, storing and sharing patient data

A photograph of a woman's legs from the knees down, standing on a wooden deck. She is wearing white shorts and clear sandals with a flower design. A white bandage is on her right knee. The background shows a wooden railing and the ocean under a blue sky. The text 'thank you!' is written in orange across the middle of the image.

thank you!
