# Dubai Smart City Strategy – Framework desired outcome

## Consolidated City Infrastructure

- Leveraging City Assets and Infrastructure will provide scalability and efficiency

## Open City Data Orchestration

- Reach City data where it resides and orchestrate secure access to stakeholders

## Window to Dubai

- Enable cross stakeholder data reach and stimulate Crowd-Sourcing for development of Smart City Applications

## Dubai Dashboard

- Provide an integrated app and data rich Geo Spatial dashboard for City decision makers

## ONE-DUBAI - Stakeholder Involvement

- Enable Stakeholder collaboration to define Smart Services based on each Stakeholder input and experience

## Smart City Dimension Focus Areas

- Enable Dubai smart city to focus on strategic imperatives of Dubai and lead globally in Smart Economy and Living
