## SPEAKER BIOGRAPHIES

### Dr. Jack Rowley - Director for Research and Sustainability, GSMA

Dr. Jack Rowley is Director for Research and Sustainability at the GSMA. Jack has more than 20 years of experience in the telecommunications industry and joined the GSMA in 2000. Prior to this, he worked for 10 years with Telstra (Australia) primarily in the research laboratories. He has given expert evidence in a number of planning hearings, been a member of international working groups, and contributed to government panels. Jack has more than seventy publications and presentations on mobile communications safety and environmental issues. He holds an Electronics Engineering Degree with first class honours from the University of Limerick (Ireland) and a PhD from the RMIT University (Australia). He is a member of the IEEE and the Bioelectromagnetics Society.

### Julio César Bustamante Velasco – Legal and Regulatory Affairs Chief, AFIN

Corporate attorney with a Masters on Business Law and a mention on Finance. Executive with 10 years solid experience in legal and regulatory counsel in on enterprise and union level regarding private-public investment in public services and infrastructure, management of public affairs and institutional relations.

### David Taverner - Senior Director, Programme Development (Digital Inclusion), GSMA

David has worked in the GSMA since April 2008 and previously was the Director for the Green Power for Mobile and Community Power from Mobile programmes. Previously, David worked at Accenture and focused on market analysis, investment due diligence and strategic planning for oil majors, renewable energy clients and private equity firms. He also worked on two large scale SAP finance system deployments at Shell and Corus (formerly British Steel). David has a 1st class BSc in Science, Computing and Management from Leeds University and an incomplete PhD in Chemical Engineering.
