CONNECTING
EVERYONE
 AND
EVERYTHING
 to a **BETTER FUTURE**

Director General's Message

The GSMA plays an extremely important role in the development of the mobile industry, uniting the world behind a standard technology and ensuring seamless and interoperable mobile services for billions of consumers globally.

We are now entering a new phase, where virtually everyone and everything is connected by mobile, presenting many new opportunities, as well as challenges, for our industry. The GSMA is focused on working with its members to capitalise on these new opportunities to drive the continued growth of this exciting and dynamic market.

Mats Granryd
 Director General, GSMA

Who We Are

The GSMA represents the interests of mobile operators worldwide, uniting nearly 800 operators with almost 300 companies in the broader mobile ecosystem, including handset and device makers, software companies, equipment providers and internet companies, as well as organisations in adjacent industry sectors. The GSMA also produces industry-leading events such as Mobile World Congress, Mobile World Congress Shanghai, Mobile World Congress Americas and the Mobile 360 Series of conferences.

**For more information, please visit the GSMA corporate website at gsma.com.
 Follow the GSMA on Twitter: @GSMA.**

GSMA Membership

Membership of the GSMA empowers you and your organisation to get to the heart of the issues facing the mobile industry and to connect with other members whose interests coincide with your own.

Members are at the centre of the discussions, decisions and GSMA initiatives that shape the future of mobile communications and expand opportunities for the whole industry. Membership of GSMA keeps your business in touch, forward-thinking and competitive.

With the GSMA, you can make a real difference, not just to your business, but to your industry and to society.

Chang-Gyu Hwang
CEO

What value does the GSMA bring to your company?

With Vision 2020, the GSMA facilitates global interoperability and advancement of mobile services while providing valuable insights into the sustainable growth of the industry.

What is the biggest opportunity for mobile operators in the next five years?

The biggest opportunities will rise with the 4th Industrial Revolution where advanced networks and platforms will bring waves of disruptive innovations to human life and industry.

GSMA DELIVERS VALUE

Mari-Noëlle Jégo-Laveissière
SEVP of Innovation, Marketing and Technologies

What value does the GSMA bring to your company?

The GSMA is fantastic in helping operators collaborate on key industry topics, such as developing interoperability standards for communication services and avoiding fragmentation on the eSIM.

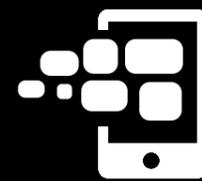

What is the biggest opportunity for mobile operators in the next five years?

To continue to develop networks and services that provide more value for customers. Some key topics and services at the forefront are 5G, the eSIM, identity and the massive arrival of connected objects.

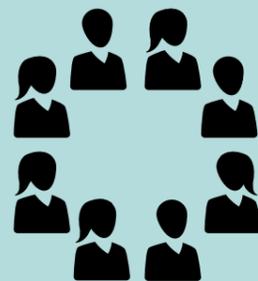

Participation and Networking

Opportunities to network with executives from across the ecosystem at GSMA forums and meetings

Access to Key Tools

Our unique online platform containing knowledge bases, best-practice guidelines, industry intelligence and insight also connects you directly to a global community of 23,000+ industry executives and experts

Programmes, Initiatives and Advocacy

Shape, expand and drive new opportunities across the mobile industry through technical working groups, regional interest groups and specialist programmes

Events and Marketing Opportunities

Promote your business at the GSMA's world-class industry events; benefit from exclusive invitations and discounts to attend

Participation and networking

GSMA facilitated programmes, projects and working groups enable Members to work together in a structured and efficient way towards a common goal. GSMA Members are encouraged to participate in a range of forums.

Working Groups

Regional Interest Groups

Seminars and Training

Use of GSMA Members Lounges

For more information about GSMA Working Groups, visit gsma.com/aboutus/leadership/committees-and-groups/working-groups. Furthermore, if you are interested in contributing and attending any of the Working Groups then please contact membership@gsma.com to become a GSMA Member and to join this group.

Working Groups and participants include:

Fraud and Security Group

Interoperability Data specifications and Settlement Group

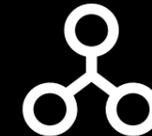

Networks Group

SIM Working Group

Terminal Steering Group

Wholesale Agreements and Solutions Group

Internet Group

Intellectual Property Rights Working Group

infobip

Silvio Kusic - Founder and CEO

"Participation in GSMA Working Groups allowed us to share and improve highest level technical knowledge of telecoms, which we were able to apply immediately and boost the mobile ecosystem."

verizon

Sanjay Mishra - Network Infrastructure Planner

"We work with several working groups within GSMA such as the Internet Group. This group actively collaborates with standards bodies such as IETF and ETSI. Via this group, member companies such as ours bring critical topics for discussion and develop a common/standards-based approach."

Access to key tools

GSMA Members are provided with an ever-evolving range of tools, resources and guidance to ensure their organisation and the industry continues to grow.

NTT
docomo

Kazuhiro Yoshizawa
President and CEO

"We, at NTT DOCOMO, have consistently devoted ourselves toward the expansion and advancement of 3G and 4G since we joined the GSMA in 2000. At present, we are leading the world in the rollout of LTE roaming through the framework of the GSMA, and we have also been making active contributions to the GSMA's activities in the area of 5G as well.

Additionally, we have also been promoting the "Smart Life" business, making new value propositions that we believe are useful for people's everyday lives including video/music distribution, various shopping services enabled on mobile devices and credit payment services. We believe that we must continue to transform ourselves to keep abreast of the changes in the environment supported by widespread adoption of mobile devices, market entry of a wide range of new players and continuous technical innovations.

We look forward to working with the GSMA and its entire membership to address the many opportunities and challenges enabled by mobile in the years ahead."

Network 2020 Shaping the next generation in mobile

The GSMA's Network 2020 programme has three key work-streams focused on: The development and deployment of IP services, The evolution of the 4G networks in widespread use today, and the 5G Journey, developing the next generation of mobile technologies and service.

Voice and video over 	Operator launches 102 
Countries 55 	Devices 842 

GSMA Deliverables

IP Services

- › Modernisation of messaging and Messaging as a Platform
- › IP network interconnect & VoLTE interoperability

4G Evolution

- › 4G evolution to create more agile networks
- › 4G evolution delivery of one-to-many services

5G

- › What should the industry promise for 5G and what changes are needed to make it happen?

Connected Living Mobilising the Internet of Things

A world in which consumers and businesses enjoy rich new services, connected by intelligent and secure mobile networks.

GSMA Deliverables

- › Accelerate the growth of secure commercial LPWA-based IoT solutions
- › IoT Big Data Analytics - growing revenue beyond connectivity
- › Promoting key horizontal enablers in specific verticals with appropriate regulation
- › Define operator requirements for the "Massive IoT" part of 5G

 Mobile IoT	 Smart Cities
 IoT Big Data	 IoT Policy and Regulation
 IoT Security	 Connected Vehicles

GSMA PROGRAMMES

Personal Data Enabling trust and creating value

Mobile Connect helps operators to manage consumers' digital identities across multiple online services, ranging from access to content and services on the web, through to more secure e-government and banking services.

Secure digital identity is now in our hands.

	Secure - Authentication over secure regulated networks
	Convenient - Seamless consistent experience across any device
	Private - No data shared without explicit consent

GSMA Deliverables

- › Support operators through their deployment of Mobile Connect
- › Strengthen and evolve the Mobile Connect product portfolio
- › Deliver, enhance and evolve GSMA platforms
- › Work with regulators and governments to assure the compliance and attractiveness of Mobile Connect
- › Deepening the specification of identity and attributes and Mobile Connect for commerce

Advocacy

The GSMA's advocacy work is centred on the following four programmes.

			
Spectrum Building the foundation for the future of mobile	Mobile for Development Transforming lives through mobile innovation	Regulatory Modernisation Resetting policy and regulation for the digital age	Industry purpose Connecting Everyone and Everything to a Better Future

Industry Purpose

Connecting everyone and everything to a better future

Industry Purpose's activities are a clear commitment to supporting the Sustainable Development Goals. As the first industry to align itself to the SDGs; the GSMA is stating a clear intention to contribute and advance the societies in which we operate.

Industry Purpose works closely with the world's mobile operators who are all unified behind one common industry purpose: Connecting everyone and everything to a better future in achieving the Goals.

GSMA Deliverables

- > Highlight industry commitment to playing a leading role in the achievement of the SDGs
- > Create a powerful messaging platform for the industry through the 'Mobile Industry SDG Impact Report'
- > Establish mobile industry executives as leaders of SDG and connectivity dialogues
- > Build partnerships with NGO's such as 'Project Everyone', WEF and the United Nations, to extend the reach of the key influencer campaign to engage with consumers

SUSTAINABLE DEVELOPMENT GOALS

Spectrum

Building the foundation for the future of mobile

The GSMA Spectrum programme's mission ensure that mobile operators have timely and affordable access to appropriate spectrum to meet the rapidly growing demand for mobile broadband services.

Regulatory Modernisation

Resetting policy and regulation for the digital age

The GSMA Regulatory Modernisation programme works to demonstrate thought leadership in digital policy and regulation, developing and promoting policy proposals that accelerate the digital economy.

Mobile for Development

Transforming lives through mobile innovation

GSMA Mobile for Development brings together our mobile operator members, tech innovators, the development community and governments, to prove the power of mobile in emerging markets. We identify opportunities and deliver innovations with socio-economic impact in financial services, health, agriculture, digital identity, energy, water, sanitation, disaster resilience and gender equality.

Syniverse®

Mary Clark - Chief Marketing Officer and Chief of Staff

"As the company that makes mobile work, Syniverse has long supported the GSMA. We've improved our products and services and contributed to the growth of the industry by participating in GSMA studies, defining common standards, and establishing best practices, among other activities."

As part of this relationship, many Syniverse experts have played integral roles across a variety of GSMA interest and working groups, and we look forward continuing to build on our relationship, exchanging ideas and helping the mobile experience be the best it can be."

Events and marketing opportunities

GSMA Membership gives you the platform to enhance the profile of your business and promote your brand on the world stage.

200,000+

People from across the globe each year

WHERE DO YOU FIT IN?

There are three types of GSMA Membership. For the full list of Membership criteria, visit the GSMA Membership website at gsma.com/membership

Full Membership

Open to licensed mobile network operators using a GSM family technology (GSM, 3G (UMTS/WCDMA), HSPA, LTE, LTE-Advanced).

Associate Membership

Open to companies in the broader mobile ecosystem, including handset and device makers, software companies, equipment providers and Internet companies. Organisations that are interested in using mobile connectivity to create new, enhanced or more efficient services – such as many companies from industry sectors such as financial services, healthcare, media, transport and utilities - are also welcomed as Associate Members.

Rapporteur Membership

Open to licensed non-GSM operators moving to LTE/HSPA or those wishing to roam on GSM networks. Machine-to-Machine (M2M) operators who are affiliates of Full Members can also apply for Rapporteur Membership.

HOW TO BECOME A MEMBER

To start your organisation's Membership application, visit the GSMA Membership website at gsma.com/membership or contact the Membership team at membership@gsma.com
