# Digital Nation Summit Jakarta 2026

## 9 December 2026, The Westin Jakarta

## Synopsis

**Unlocking Indonesia's Digital Future: Fostering Digital Trust Through A Safe and Resilient Digital Ecosystem**

Indonesia is entering a new phase of digital transformation, with the priority shifting from expanding access to translating connectivity into trusted digital services, productive industries and inclusive growth across the country. As digital technologies become more deeply embedded across the economy, strengthening digital trust, resilient infrastructure and responsible innovation will be critical to unlocking the next wave of national growth.

The GSMA Digital Nation Summit Jakarta 2026 will bring together policymakers, mobile operators, technology leaders and the wider digital ecosystem to examine how Indonesia can build the infrastructure, trust and partnerships required for an AI-enabled digital future. Discussions will connect national priorities and policies with practical industry action, from strengthening digital trust and scam resilience, to supporting investment in resilient digital infrastructure, enabling AI adoption and accelerating digital transformation across key sectors.

Discussions will focus on:

- **Advancing Indonesia's next connectivity chapter:** Creating the conditions for sustained investment, resilient infrastructure and wider digital adoption with adequate safeguards and protection that deliver stronger economic and social outcomes.
- **Strengthening digital trust and scam resilience:** Moving from fragmented interventions to coordinated action across operators, banks, platforms, government and law enforcement, including trusted identity and signal sharing.
- **Scaling AI responsibly and effectively:** Exploring how governance, infrastructure, partnerships and industry capabilities can support AI adoption across the economy while maintaining trust and accountability.
- **Converting innovation into inclusive value:** Showcasing how connectivity and digital technologies can support industry transformation, public services and opportunities beyond major urban centres.

Join us for an important dialogue on the opportunities and challenges shaping Indonesia's digital future, and hear from leaders across government and industry on how we can unlock the connectivity, trust and innovation potential to realise the next wave of digital growth.

GSMA

## Event Agenda - Main Stage

| | |
|---|---|
| 09:00 – 10:40 | **Unlocking Indonesia's Digital Future: Fostering Digital Trust Through A Safe and Resilient Digital Ecosystem** |
| 08:30 – 09:00 | Registration |
| 09:00 – 09:15 | Welcome |
| 09:15 – 09:25 | Opening Address<br>*Indonesia's priorities for trusted digital transformation, advanced connectivity and inclusive growth* |
| 09:25 – 09:35 | Keynote Address: **Indonesia's Next Digital Chapter** |
| 09:35 – 10:05 | Digital Leaders' Fireside Chat: **Connecting for Growth — Unlocking Indonesia's Next Growth Chapter**<br><br>*Indonesia's mobile market has entered a new phase, with three national operators and renewed expectations for coverage, quality and investment. This conversation will explore how Indonesia can leverage connectivity to accelerate economic growth. It will look at what is needed to sustain investment in the next phase of network development, and how wider adoption of advanced connectivity by enterprises, MSMEs and communities can lead to higher productivity, competitiveness and growth.* |
| 10:05 – 10:40 | Keynote Panel: **Trusted by Design – Building Indonesia's Trusted Digital Economy**<br><br>*Trust is the foundation of Indonesia's digital economy. As more everyday activities, interactions, and transactions move online, citizens and businesses need confidence that the digital services they use are secure, reliable and accountable. This keynote panel will examine the strategic levers required to build a trusted digital economy. It will cover the roles of government, operators, digital platforms and financial services, and how clear frameworks, shared accountability and sustained collaboration across sectors can support long-term digital growth.* |
| 10:40 – 11:00 | COFFEE BREAK |
| 11:00 – 12:30 | **Fostering Digital Trust: From Principles to Practice** |

| | |
|---|---|
| 11:00 – 11:30 | Panel: **Digital Growth through Investment in Resilience**<br>*Indonesia's next phase of digital growth will be unlocked through resilient connectivity that delivers tangible social and economic outcomes. This panel will examine the policy conditions and market realities needed to unlock long-term capital for digital infrastructure. It will also explore how government, investors, operators and infrastructure providers can work together so that connectivity investments translate into measurable growth and development across Indonesia.* |
| 11:30 – 12:00 | Panel: **Breaking the Scam Chain – Shared Signals, Faster Intervention**<br>*Scams move across telecommunications, financial services and online platforms. This session will explore how trusted signal sharing, common definitions, governance and operational coordination can enable earlier detection and intervention while protecting privacy and legitimate users.* |
| 12:00 – 12:30 | Panel: **Responsible AI at Scale: Across AI Roadmap and Governance**<br>*Indonesia is moving from AI ambition towards implementation, with a national roadmap and ethics framework intended to guide responsible adoption across priority sectors. This panel will explore how policy principles can be translated into practical, risk-based governance, supported by clear institutional roles, industry assurance and investment in the infrastructure and capabilities needed to deploy AI safely and inclusively at scale* |
| 12:30 – 13:30 | **LUNCH BREAK** |
| 13:30 – 15:00 | **Infrastructure to Accelerate an Innovation Enabled Indonesia** |
| 13:30 – 13:35 | Opening |
| 13:35 – 13:45 | Presentation 1 |
| 13:45 – 14:15 | Panel: **Delivering Indonesia's Digital Future through the Infrastructure Roadmap (TBC)** |
| 14:15 – 14:30 | Presentation 2 |
| 14:30 – 15:00 | Panel: **Innovating Infrastructure for the Digital Future (TBC)** |
| 15:00- 15:25 | ***COFFEE BREAK*** |
| 15:25 – 17:00 | **From AI Ambition to Scaled Adoption** |
| 15:25 – 15:30 | Opening |

| | |
|---|---|
| 15:30 – 15:40 | Presentation 1 |
| 15:40 – 16:10 | Panel: **From AI Pilots to Business Transformation (TBC)** |
| 16:10 – 16:25 | Presentation 2 |
| 16:25 – 16:55 | Panel: **Building Indonesia's AI Capability and Competitiveness (TBC)** |
| 16:55 – 17:00 | Summit Closing |
| 17:00 – 18:00 | **Networking Cocktail** |
