#### **GSMA 100 | About the Program**

GSMA 100 are the world's **most promising growth stage companies** who are creating the next generation of connectivity and digital services

It was developed from mobile operators' desire to shorten the time to innovation discovery, by **sharing common interests and market validation** 

GSMA 100 leverages **GSMA's reach into the mobile** operator, investment and innovation ecosystems ...

... and offers **new channels to speed business development, commercial partnerships and investment**with mobile operators and key partners

### **GSMA 100 | The proposition**
