

Dear members,

Asia Pacific 5G Industry Community (APAC5GIC) have hosted the first Logistics, Port & Transportation Industry interest group workshop '**5G Transforming Airport and Aviation**' where aviation and mobile industry leaders shared their 5G deployment, rich use cases in Airport 4.0 and ecosystem development. The success of 5G depends on the adoption of compliance, global standards and government regulations to ensure that more use cases are implemented at scale.

In Thailand, AIS partners **Thai Automation and Robotics Association, Lertvilai, Sons** and **Yawata** showcased Connected AMR with Smart 5G Network for Smart Factory. **Siriraj Hospital** launched "Siriraj World Class 5G Smart Hospital" with **NBTC & Huawei**. In Indonesia, **Telkomsel** presented 5G Experience Center at Launch of Indonesia Digital Industry Center 4.0. Read the spotlight section for details.

Next, APAC5GIC will run the Healthcare interest group workshop '**How 5G and IoT tech will transform healthcare**'. Register [here](#) to save your seat. Topics include:

- Overview of healthcare in the post-pandemic era
- How 5G and IoT tech will transform healthcare
- Innovative healthcare examples
- How we can accelerate digital transformation with policy, technology, ecosystem and partnership

How 5G and IoT tech will transform healthcare

Start: Thursday 17 February 2022
15:00

End: Thursday 17 February 2022
17:00

Venue: Online (GMT+8)

APAC 5G Industry Community spotlight

5G is opening a new exciting page for the digitization of the aviation industry. From fully autonomous airport operations to more seamless passenger experience, the industry is witnessing how 5G will usher in its future development. Register [here](#) to watch what **Hong Kong International Airport, Airbus, AirAsia, Accenture, China Mobile Hong Kong, Huawei**, other aviation and mobile experts shared about their 5G journey and revolution in the industry!

5G
Transforming
Airport
and **Aviation**

Date : Thursday
13 Jan 2022
Time : 15:00 - 17:00
GMT+8
Venue : Online
