

# Smart Cities

## Connected Living Programme Smart City Demonstrator Work Stream

Ton Brand, Programme Director

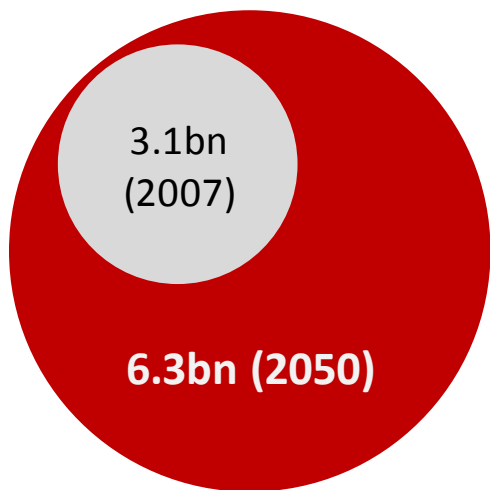

26 June 2012

# Why Focus on Smart Cities? Growing Need for ICT

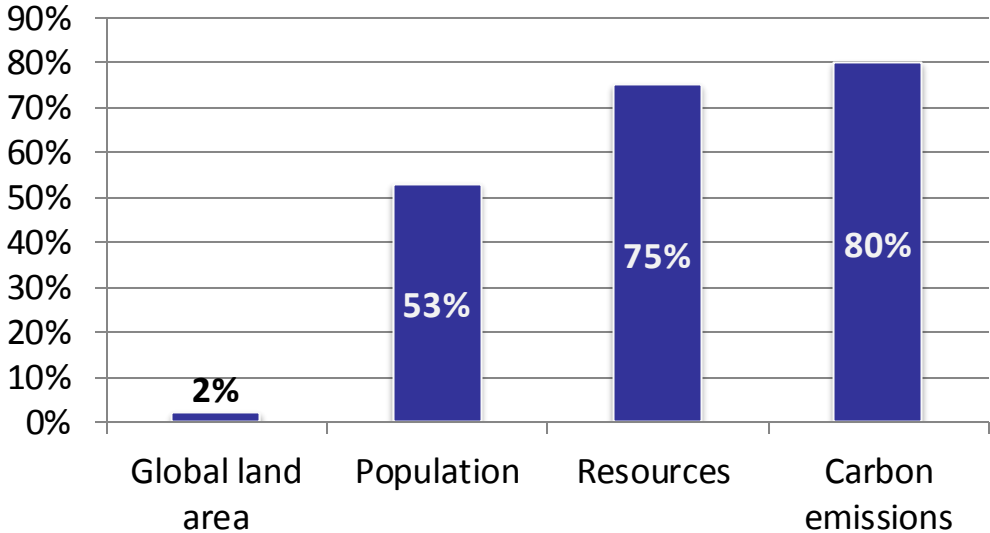

# \$1.2trn

Will need to be invested in ICT and "smart" urban infrastructure worldwide over the next decade  
--Cisco

## Global urban population

## Cities around the world

# ~\$200Bn

To be invested in upgrading smart grid infrastructure in the next decade  
-- Deutsche Bank

# What is a Smart City? Many definitions, many verticals

## KNOWLEDGE CITY

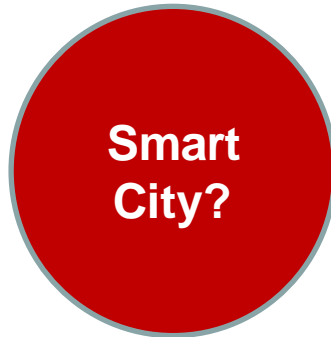

Common service delivery platform for economies of scale across multiple infrastructure layers

## SUSTAINABLE CITY

Goes beyond economic targets, to deliver quality of life improvements for its citizens, industry and local environment

## INNOVATIVE CITY

Innovates to provide access to enhanced information flow for citizens and services providers

## Intelligent CITY

Combines disparate data sets to offer productivity insights and enhancement to its citizens and service providers

## Sensor networks

SMART GRIDS

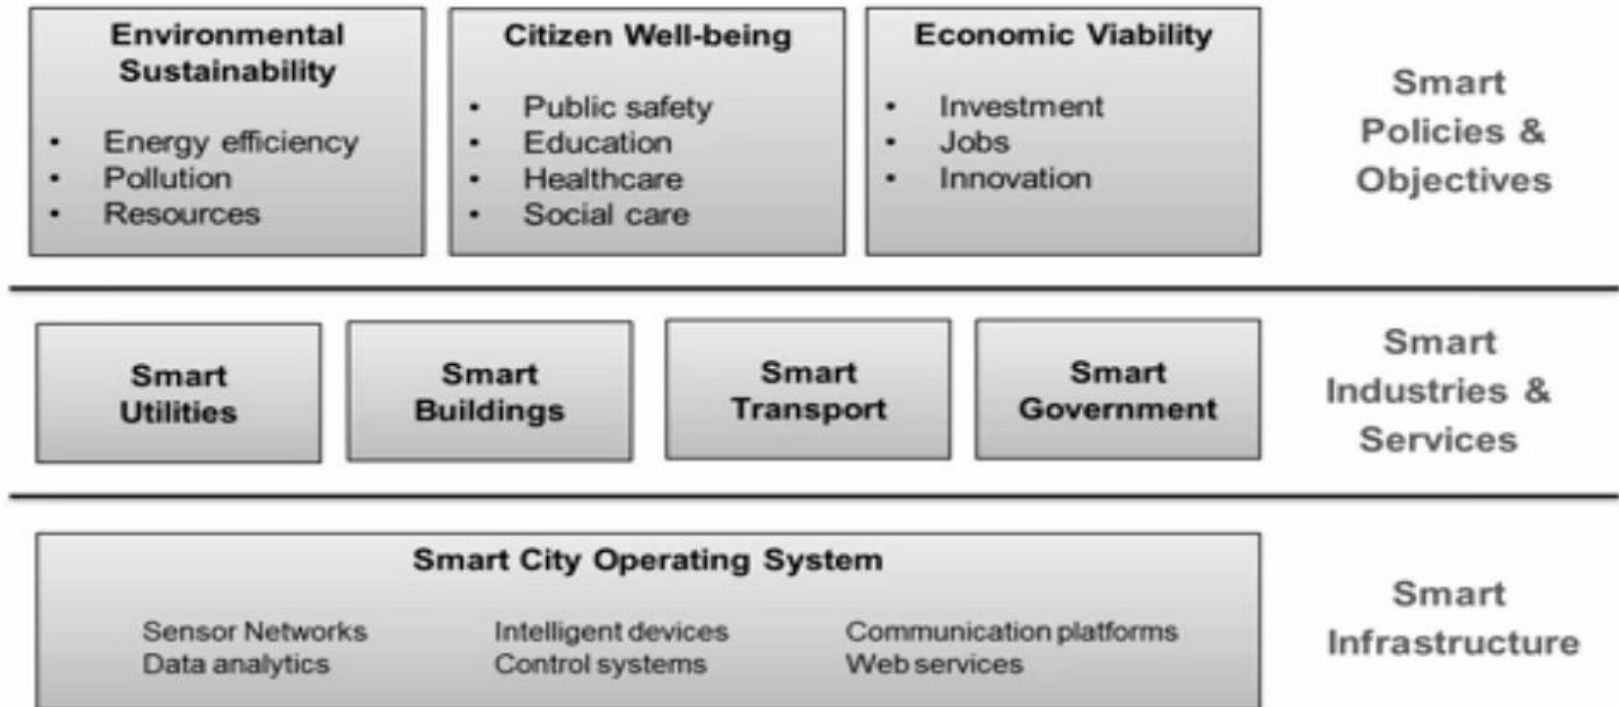

Intelligent Transport Systems

E-GOVERNMENT

# Both ICT and Policies are Crucial Elements of the Smart City Model

## Smart City Model

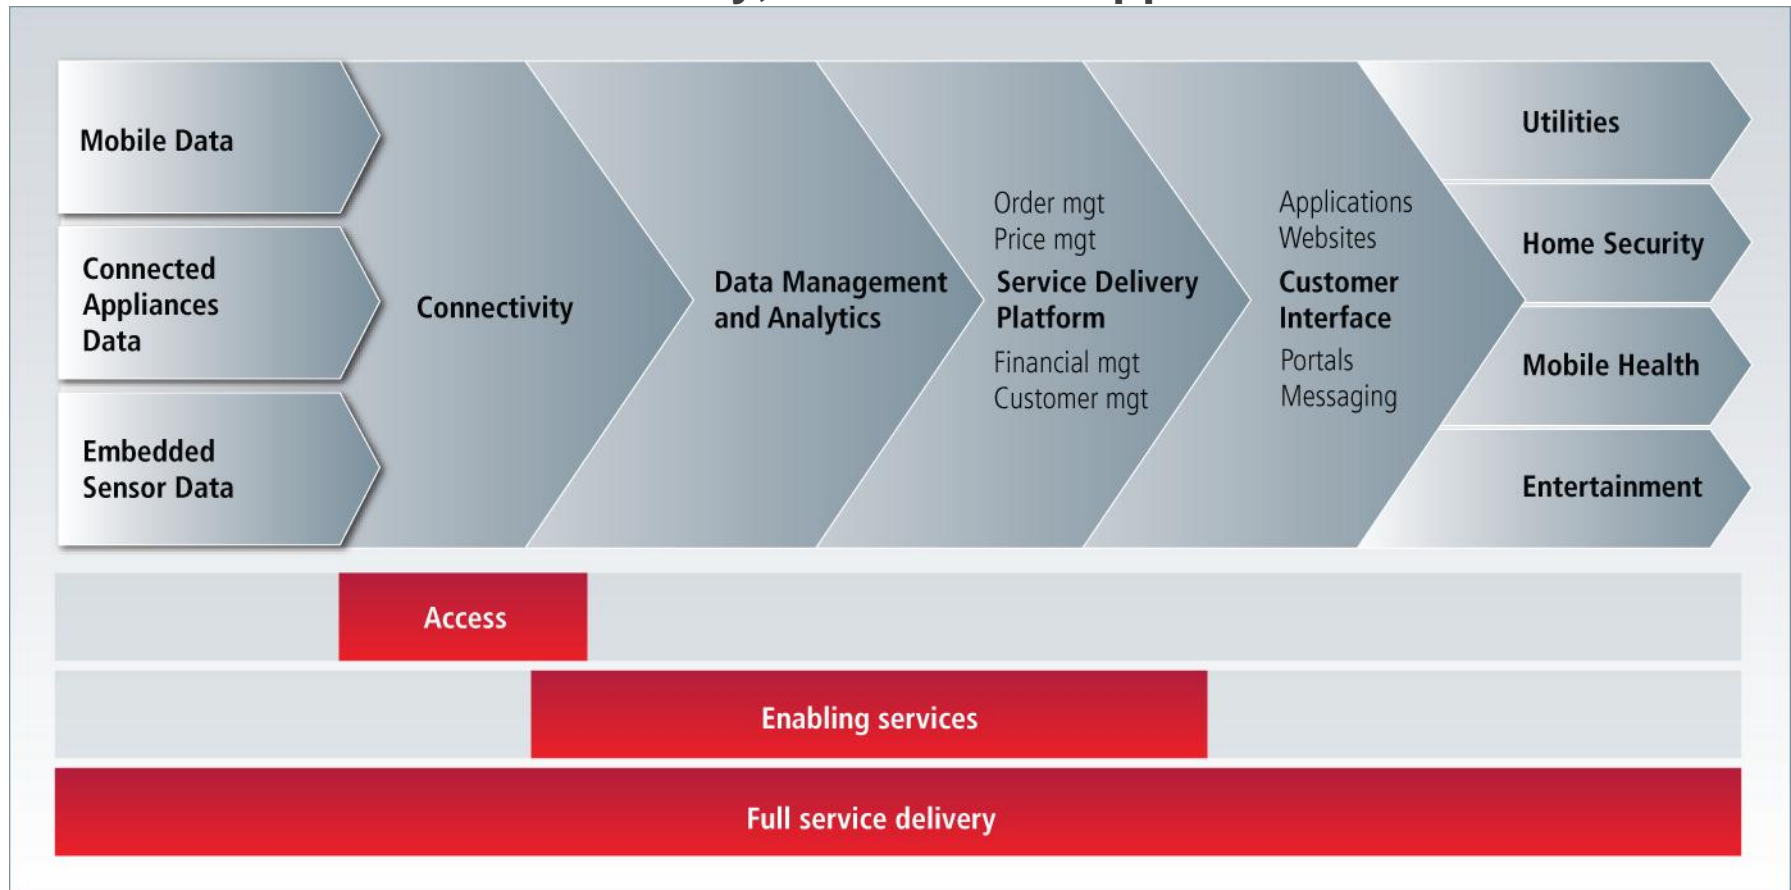

Source: Pike Research

**Without policy and smart infrastructure, these are just discrete technology projects**

# Role of Mobile in Smart Cities

Multiple mobile assets can be deployed for smart city connectivity, services and applications

Source: Accenture, Smart Mobile Cities report, 2011

# Mobile Services for Smart Cities

- Of 124 smart cities deployed or planned globally, 34 cities have mobile-based services
- Over half of smart cities without mobile involvement are at design/planning, or early deployment stages.
- Half of all projects involve the rollout of municipal infrastructure for a mix of applications. Other projects include ITS, smart grids, EV charging and using m-payment/NFC for ticketing/other types of services

Smart cities with mobile-based services, global, 2011

Source: GSMA research

**Deployment of wireless cities will change the regional breakdown of projects**

# Regional focus for Smart City services

- North America: focus on smart grids; cherry-picking low-hanging fruit (federal funding)
- Europe: regeneration and sustainability
- Asia-Pacific: dealing with rapid urbanisation and e-government
- Latin America: transportation

Source: ABI Smart Cities Report, 2011, GSMA research  
Public safety projects include emergency response, protection against extreme events

# New Opportunity: Launch of Mobile World Capital

Barcelona won the Mobile World Capital title in 2011, and the Mobile World Capital Foundation was announced on 27 February 2012.

The Mobile World Capital is a 6-year initiative, boasting exceptional political and industry support. Its founding partners are the Barcelona City Council, the Catalan and Spanish Governments, Fira of Barcelona and the GSMA.

## Founding Partners

# Mobile World Capital: Test Bed and Showcase for Mobile Industry

In the heart of the Mobile World Capital is the Mobile World Hub –a B2B test bed for industrial mobile solutions and mobility services.

**Mobile  
World  
Congress**

The largest  
worldwide B2B event  
of the mobile industry

**Mobile  
World  
Hub**

Ecosystem to develop  
cross industry mobile  
services and solutions

**Mobile  
World  
Festival**

Public events to  
promote and spread  
the use of mobility

**Mobile  
World  
Centre**

Permanent headquarters  
of the capital and  
exhibition space

# GSMA Expertise for M-Programme in Barcelona

The M-Programme is set up within the Mobile World Hub to develop the ecosystem of mobile projects with the engagement of companies from public and private sectors.

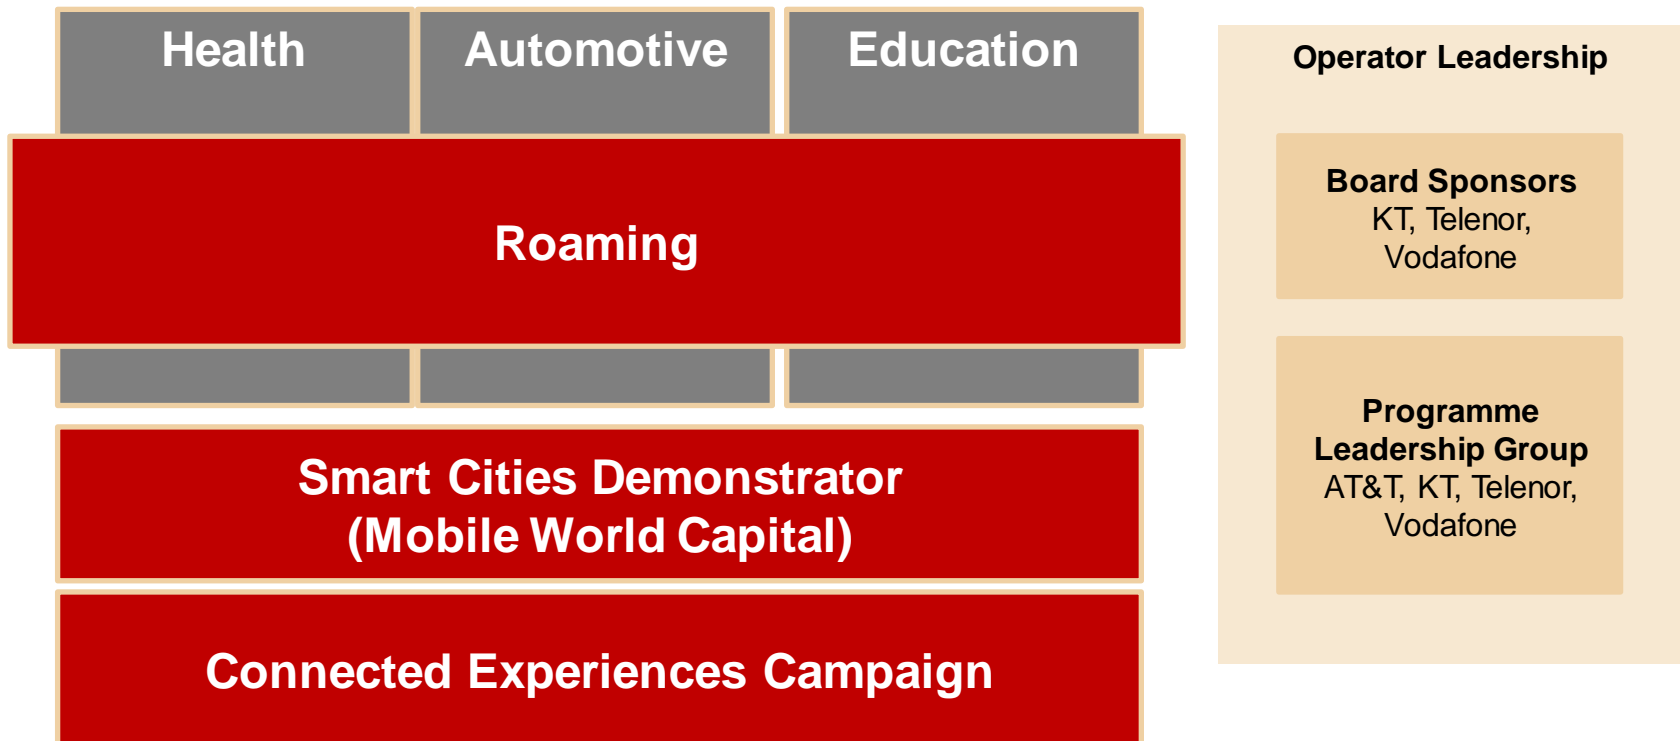

GSMA is working with the Catalan Government and the City of Barcelona on setting up the Smart City initiative – one of 5 key areas for the Mobile World Capital.

# GSMA Connected Living Programme

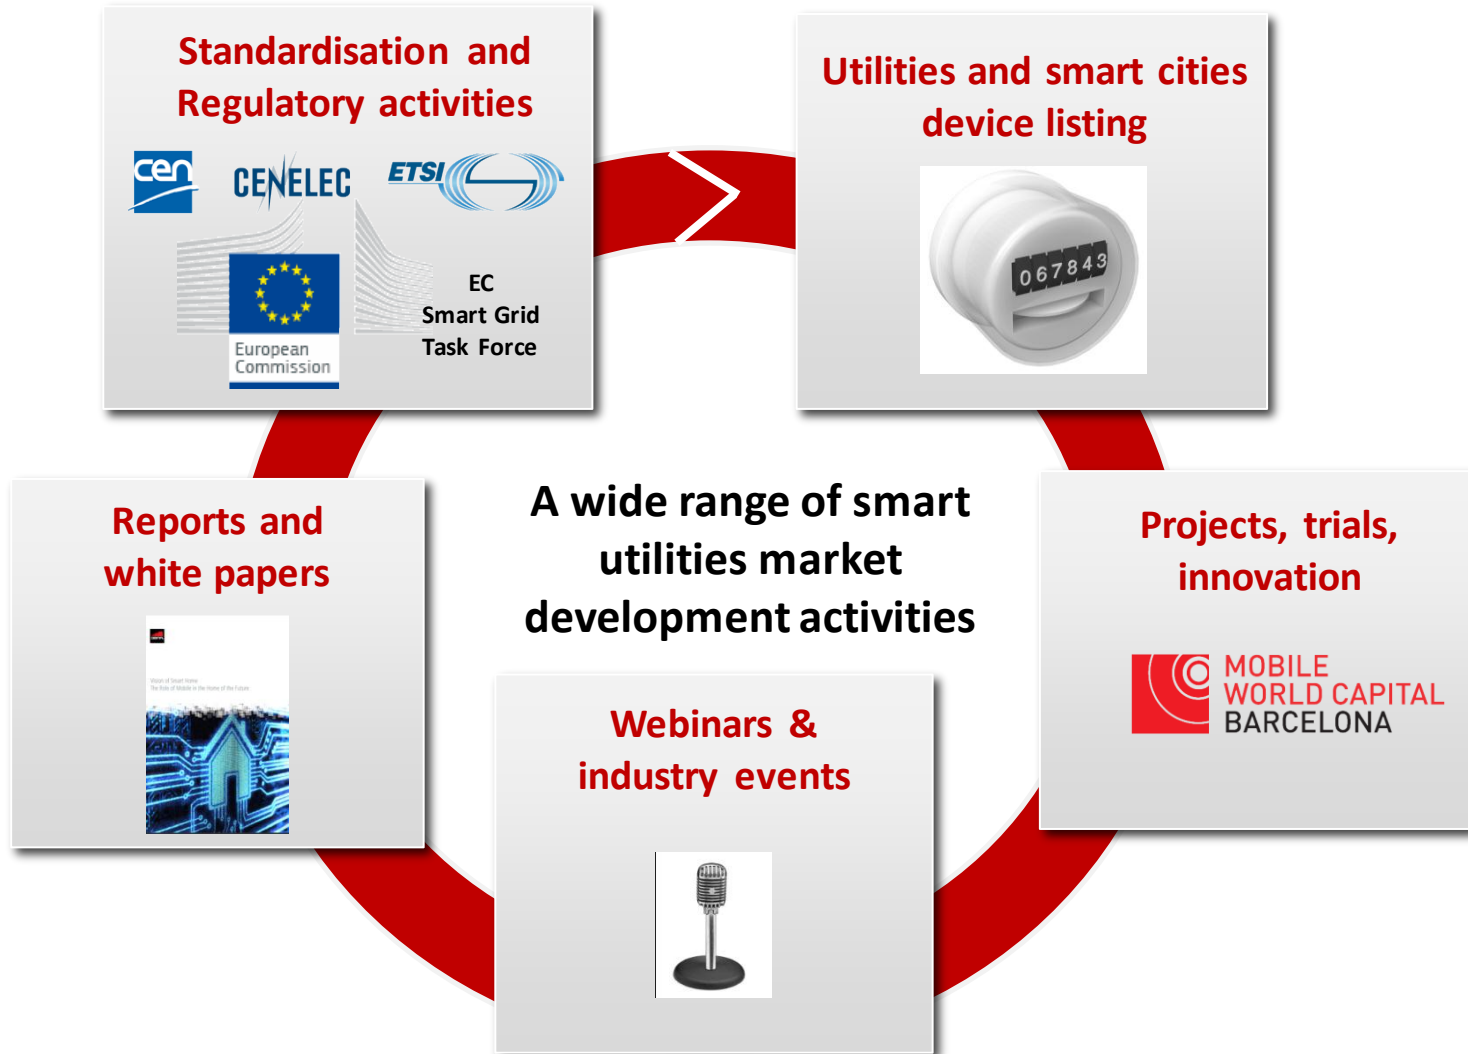

- **Service trials or launches** of mobile connectivity and value added services
- Promote **the role of mobile** in the connected world
- Support Barcelona to become a world class **Mobile World Capital**
- Agreement **to change the roaming model** reflecting vertical market requirements

**GSMA Connected Living Programme: Helping to Realise New Opportunity**
