Recap

Young workforce and shoppers are the TikTok/Instagram generation, can businesses keep representing their brands through existing call center platforms or present-day sales associates?

Can brands compete with industry behemoths by launching marginally evolved services (websites, customer care...)?

- World's first GSMA Accredited UP2.0 MNO is deployed with Summit MaaP
- Integration support with call center/customer care platforms, including transformation with RCS/IMS voice-video & 5G
- Horizontally integrated eCommerce support for MaaP: chatbots, websites, kiosks
- Digital Identity with Mobile Connect

Visit us at MWCA19 Booth S.1713 for demos
