Select the Create account or log in option to proceed.

The image shows a laptop displaying the IBM watsonx user interface. On the left side of the laptop screen, there is a dark sidebar with the following content:

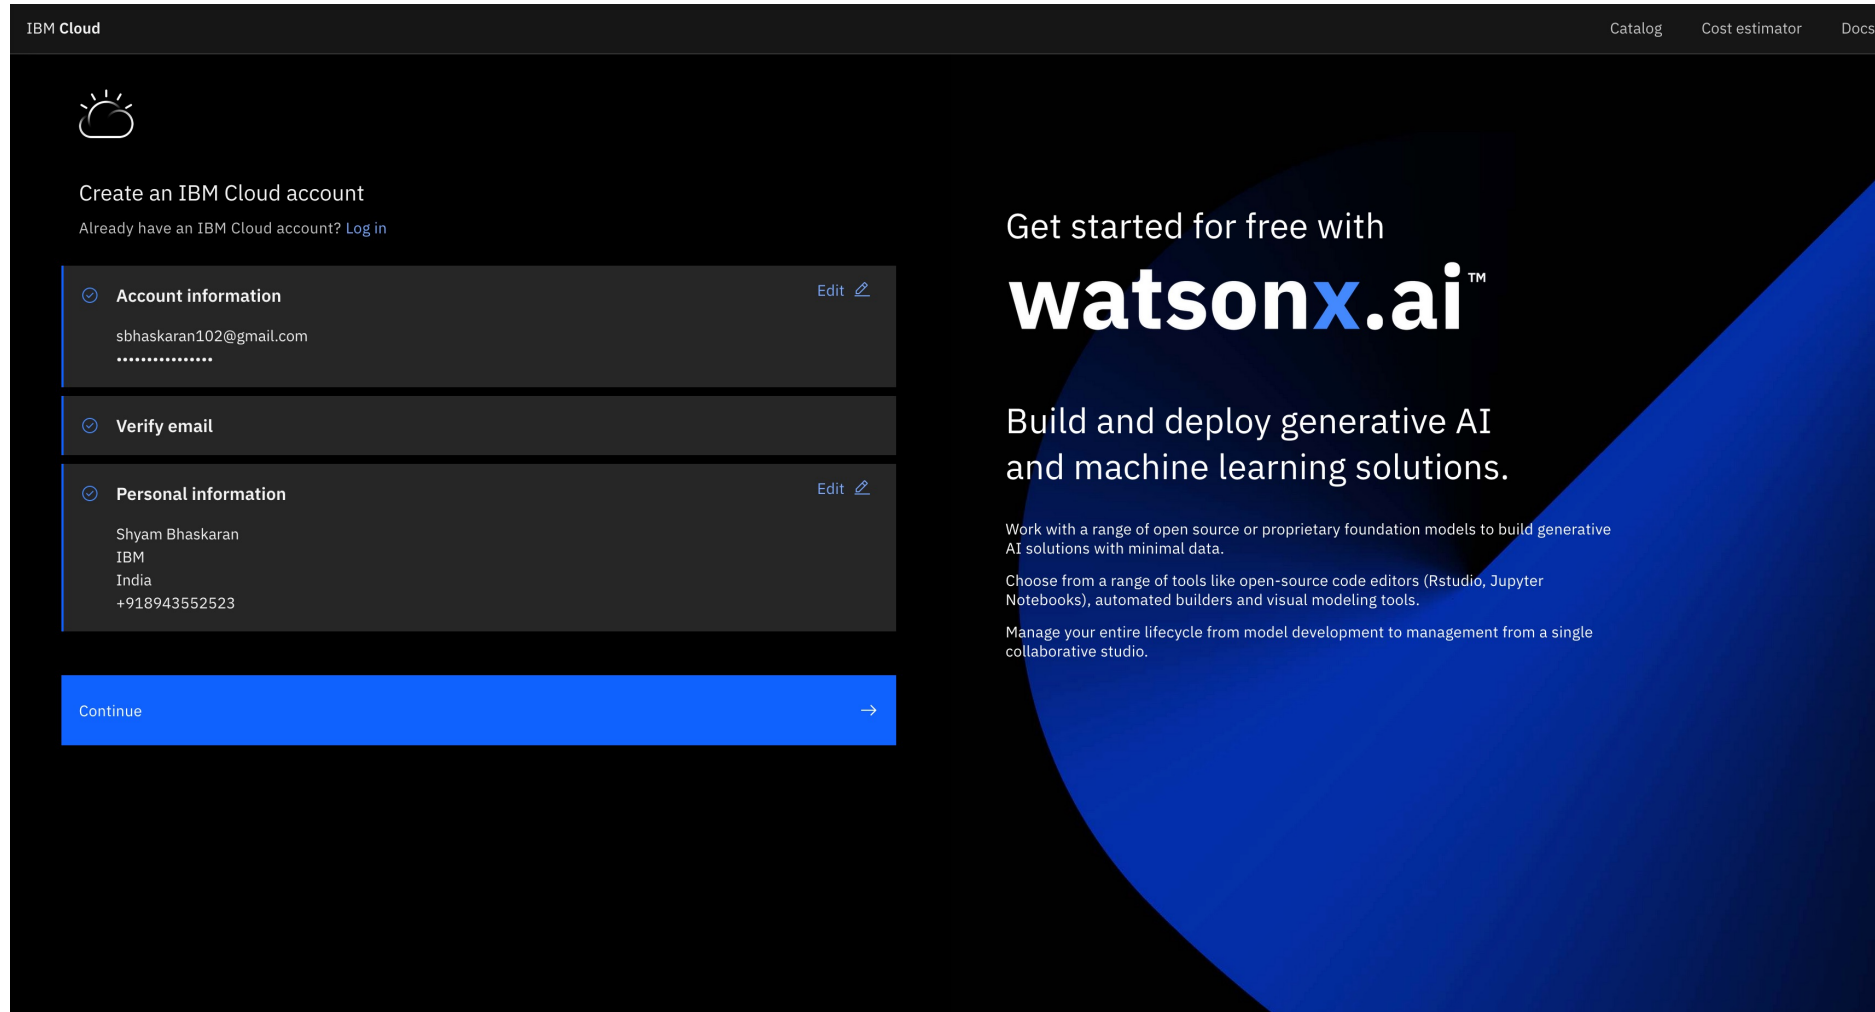

- IBM watsonx logo at the top.
- Section: **Try IBM watsonx.ai for free**
- Text: Build, train, validate, tune and deploy AI models.
- Section: **Select a region**
- Text: Select the region closest to you or where you plan on hosting your data and services.
- Note: tools for foundation models are available only in the Dallas and Frankfurt regions.
- Region selection dropdown: Dallas (us-south)
- Section: **Create an IBM Cloud account**
- Text: I agree to the [terms](#) and I have read the [Data Use Policy](#).
- A prominent blue button with white text: **Create account or log in** with a right-pointing arrow.
- Text below the button: Not ready to create an account? [View the interactive demo](#)

The main area of the laptop screen displays the user's dashboard:

- Header: IBM watsonx, Search your workspaces, Upgrade, IBM account, Dallas, and user initials KB.
- Greeting: **Welcome, Kate**
- Context: Open in: Kate's Sandbox
- Primary action: Train, validate, tune, and deploy AI models. (with a **Customize your journey** dropdown)
- Four AI-powered task cards:
 - Experiment with foundation models and build prompts (with Prompt Lab)
 - Build machine learning models automatically (with AutoAI)
 - Build machine learning models using code in R or Python (with Jupyter Notebook editor)
 - Prepare and visualize data (with Data Refinery)
- Section: **Jump back in** (Recently visited pages)
- Recent work section with two columns:
 - Projects**: Kate's sandbox (Just now), Data governance and privacy (1 h ago)
 - Deployment spaces**: Supply chain deployments (1 h ago), Data governance deployment (5 h ago)

Build and deploy generative AI and machine learning solutions.

Work with a range of open source or proprietary foundation models to build generative AI solutions with minimal data.

Choose from a range of tools like open-source code editors (Rstudio, Jupyter Notebooks), automated builders and visual modeling tools.

Manage your entire lifecycle from model development to management from a single collaborative studio.

Sign up

Enter the Account and Personal information to complete the sign-up form.

About your IBMid Account

By creating, or using, an IBMid to access an IBM Web site or other service, you acknowledge that you have read, understand, and agree to be bound by the below terms, in addition to the terms in the IBM Terms of Use, the IBM Privacy Agreement and the "About your IBMid Account Privacy" section of this notice provide details on how IBM protects your personal data.

Most IBMid accounts are individual IDs, meaning you manage your own account information and access your account through the IBMid login service (i.e. IBMid is the authenticating agency).

If your account is created using an email address containing a domain owned by an organization which you are employed by, contracted to, or volunteer for, your organization can:

- inquire about the status of your ID
- request your account settings (including your personal information)
- at its option, convert it to an enterprise ID.

If your account was created as (or is converted to) an enterprise ID, your organization manages your account information. It is also the authenticating agency for your ID, meaning your access is controlled by your organization's login service.

[Last updated: 2023-09-30]

- What data does IBM collect? ▾
- Why IBM needs your data ▾
- How your data is obtained ▾
- How IBM uses your data ▾
- How IBM protects your data ▾
- How long we keep your data ▾
- About your IBMid Account Privacy ▾

I acknowledge that I understand how IBM is using my Basic Personal Data and (if applicable) how my organization may become the authenticating agency for my IBMid account. I certify that my age is at least the age of consent for my country of residence.

watsonx - Homepage

The user will be navigated to the watsonx homepage, and the user will need to Upgrade the account to add a Credit Card on file to apply the promo code. This is after 30 days of limited trial and for an extended usage they need to upgrade their cloud account

watsonx - Upgrade

The user needs to perform an upgrade for using the promo code and for this the user can select on the Upgrade (highlighted) account option on the top menu bar.

Applying the watsonx.ai promo code

- You must be the billing administrator
- From the IBM Cloud console, go to Manage > Billing and usage, and select Promotions and credits.
- Click Apply a promo code.
- Enter your promo code and click Verify.
- Review the promotion details and click Apply. After the promo code is applied, a success message is displayed.

Applying the watsonx.ai promo code (1/4)

The screenshot shows the IBM Cloud dashboard interface. At the top, the browser address bar displays 'cloud.ibm.com' and the page title is 'IBM Cloud'. The navigation bar includes 'Catalog' and 'Manage' (highlighted with a white box). The account identifier '2375686 - datafabrictr...' is visible on the right. A dark banner at the top of the dashboard reads 'Curious about securely developing, deploying, and managing regulated, enterpr...'. The main content area features a 'Dashboard' header with a dropdown arrow. A yellow callout box labeled 'Select Billing and Usage' is positioned over the 'Account' menu, which is open and lists options such as 'Billing and usage', 'Catalogs', 'Enterprise', 'Security and access', 'Access (IAM)', and 'Context-based restrictions'. The dashboard includes a 'For you' section with a 'Build' card (blue background) and a 'Build a machine learning model' card. A 'Create resource' button is visible in the top right of the main content area. The bottom left corner shows a vertical sidebar with various icons and the text 'vm'.

Applying the watsonx.ai promo code (2/4)

The screenshot shows the IBM Cloud Billing and usage interface. The left sidebar contains navigation options: Billing and usage, Usage, Billing items, Payments, Invoices, Commitments & subscriptions, Carbon calculator (New), Sales, Spending notifications, Promotions and credits (highlighted), and Payment preferences. The main content area displays filters for Status (All) and Type (All), a search bar, and a blue button labeled "Apply a promo code". Below this is a table with columns: Promotion, Remaining Credit, Starting Credit, and Status. The table is currently empty, showing a message: "You don't have any promo codes." A yellow highlight box is placed over the text "Select Promotions and credits". At the bottom, there are pagination controls: "Items per page: 10", "0-0 of 0 items", "1 of 1 page", and navigation arrows.

Viewing your Promotions

- In the IBM Cloud console, go to Manage > Billing and usage, and select Promotions and credits
- Click a promotion to expand the table and view a description of each promotion and the products it applies to.

watsonx – Promo Code Important Information.

IBM will give \$150 in cloud credits for use over 90 days on watsonx.ai (Watson Machine Learning, Watson Studio).

Your technical contact should assure usage of only watsonx.ai (Watson Machine Learning, Watson Studio), up to the \$150 limit and during 90 days. Usage that is not included such as other services or usage above the 150 or beyond 90 days will be charged to you.

A paid client account is required for IBM to put the credits into. To get a paid account for IBM to put credits into, you can use an existing paid account, create a new cloud account with a credit card, or via a subscription.

Once there is a paid client account in place, IBM will put the 150 credits into the account. The user can only apply 1 promo code per account and this promo is valid 5/31 unless there is a burndown before.
