

MWC26 Barcelona

GSMA Technology Event Guide

What's Happening at MWC26 Barcelona?

MWC26 Barcelona has a compelling agenda, from summits and exclusive roundtables to demo showcases and networking opportunities. The event brings together industry leaders to drive forward-thinking strategies.

Discover the latest innovations driven by GSMA Foundry and its partnerships at the GSMA Pavilion and New Frontiers, how adjacent industries are embracing mobile connectivity in Connected Industries and the latest trends and developments across a host of technologies in GSMA's Technology Summits.

This guide is your roadmap to the event, featuring key highlights, demonstrations, and resources.

This includes:

— KEY TECHNOLOGIES

5G/6G

Quantum

eSIM

Identity

IoT

NTN

Open Gateway

Towers

AI

Security

— KEY CONNECTED INDUSTRIES

Manufacturing

Fintech

Smart
Mobility

Sports &
Entertainment

Summary of Events

2–5 March

Please note that all timings mentioned below are in Central European Time (CET)

	DAY 1 2 MARCH	DAY 2 3 MARCH	DAY 3 4 MARCH	DAY 4 5 MARCH
SUMMITS	<p>09:00–13:00: Agentic AI Summit</p> <p>09:00–18:30: Talent Arena: Open Gateway Hackathon Day 1</p> <p>11:00–17:15: Manufacturing and Production Summit</p> <p>15:00–18:30: 5G Future Summit</p>	<p>09:00–15:00: Talent Arena: Open Gateway Hackathon Day 2</p> <p>09:30–13:00: Security Summit</p> <p>10:00–16:00: Fintech Summit</p> <p>15:00–17:00: Post Quantum Network Seminar</p> <p>15:00–18:00: Talent Arena: Open Gateway DevCon</p> <p>16:30–17:45: AI Masterclass: Architecting the Sovereign Edge <i>How Operators Turn AI Infrastructure into Scalable Revenue</i></p>	<p>09:00–11:30: IoT Summit</p> <p>09:00–13:00: Open Gateway Summit</p> <p>09:30–11:40: Quantum Technology Summit</p> <p>10:00–15:45: Smart Mobility Summit</p> <p>10:00–12:30: Satellite & NTN Summit</p> <p>12:30–14:30: eSIM Summit</p> <p>15:00–16:30: SEC CON</p> <p>15:00–17:00: Device Enablement Summit</p> <p>15:00–18:30: Mobile Identity Summit</p> <p>15:15–19:00: Tower Summit</p> <p>16:00–18:30: MVNO Summit</p> <p>16:15–17:30: Masterclasses - Private Networks</p>	<p>10:00–14:00: Sports and Entertainment Summit</p>
ROUNDTABLES	<p>09:00–11:00: Open Gateway Advanced APIs Roundtable</p> <p>09:00–11:00: Smart Mobility Roundtable</p> <p>11:30–13:30: Open Gateway Channel Partners Roundtable</p> <p>14:00–16:00: Fusion: Automotive Roundtable</p> <p>16:30–18:30: Fusion: Aviation Roundtable</p> <p>17:15–18:00: Open Gateway APAC Roundtable</p>	<p>09:00–11:00: 5G Standalone Roundtable</p> <p>11:30–13:30: NTN Roundtable</p> <p>14:00–16:00: Tower Forum Roundtable</p>	<p>09:00–11:00: AI-Open Telecom Models Roundtable</p> <p>09:30–12:30: CISO Roundtable</p> <p>09:30–11:30: Manufacturing and Production Roundtable</p> <p>12:30–14:30: NUHS Roundtable</p> <p>13:30 - 16:00: Post Quantum Cryptography Roundtable</p> <p>16:30–18:30: Virginia Tech Roundtable</p>	<p>09:00–11:00: 6G Community Roundtable</p> <p>09:00–11:00: Private Networks Roundtable</p> <p>11:30–13:30: Open Verifiable Calling Roundtable</p>

*all round tables are by invite only

Technology Summits

Day 1: Monday 2 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Agentic AI Summit	09:00–13:00	GSMA Summits Stage, Hall 6	
	<p>The Agentic AI Summit will explore how Agentic AI will provide tangible telco value by discussing strategies for driving network autonomy to reduce OpEx, creating new revenue via hyper-personalised services, and monetising infrastructure through secure API orchestration.</p>		

SPONSORS:    

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Manufacturing and Production Summit	11:00–17:15	Connected Industries Stage, Hall 4	
	<p>The Manufacturing Summit will explore how operators can speak the language of business leaders, build propositions that support cybersecurity and data integrity, enhance operational resilience, and enable the scalable deployment of AI-powered solutions in an increasingly dynamic industrial landscape.</p>		

SPONSORS:     

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
5G Future Summit	15:00–18:30	GSMA Summits Stage, Hall 6	
	<p>This summit examines how monetisation of standalone networks can practically be achieved, from enabling programmable capabilities through standardised APIs, to scaling differentiated services with 5G-Advanced, embedding AI to optimise performance and economics, and ensuring that today's architectural decisions align with the intelligent, open networks expected in the 6G era.</p>		

SPONSORS:      

Day 2: Tuesday 3 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Security Summit	09:30–13:00	GSMA Summits Stage, Hall 6	
	The Security Summit will explore the top priorities and emerging challenges for security, such as predictive trends and practical responses to future risks. The Summit also provides a deeper understanding of the value of threat intelligence and secure information sharing.		
SPONSORS:			
     			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Fintech Summit	10:00–16:00	Connected Industries Stage, Hall 4	
	The Fintech Summit will highlight the power of AI, mobile commerce, and digital trust to redefine global finance. These themes underpin the collaborations shaping a smarter, safer, more connected financial world.		
SPONSORS:			
      			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
8th Post Quantum Network Seminar	15:00–17:00	GSMA Summits Stage, Hall 6	
	The 8th Post Quantum Network Seminar will explore the essential state of readiness for post-quantum cryptography (PQC) standards and their profound implications for the mobile industry. With the rapid advancements in quantum computing, traditional cryptographic algorithms face significant challenges, making it crucial for all sectors that rely on secure communications to take proactive steps.		
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
AI Masterclass: Architecting the Sovereign Edge <i>How Operators Turn AI Infrastructure into Scalable Revenue</i>	16:30–17:45	Connected Industries Stage, Hall 4	
	The masterclasses will equip mobile industry professionals with practical tools and frameworks for developing new go-to-market strategies, crafting compelling propositions and applying market insights from real-world examples.		
SPONSORS:			
 			

Day 3: Wednesday 4 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
IoT Summit	09:00–11:30	Theatre 4, Hall 8.0	
	The IoT Summit will focus on simplifying IoT deployment, reducing complexity, and enabling widespread adoption across industries and geographies, highlighting how the right enablers can ensure service availability, identity and security, and operational efficiency for customer applications at scale.		
SPONSORS: <div style="display: flex; justify-content: space-between; align-items: center; padding: 5px;"> <div style="border: 1px solid #ccc; padding: 2px 5px; font-size: 8px;">PLATINUM</div> <div style="text-align: center;">  <small>verizon business</small> </div> <div style="text-align: center;">  <small>Giesecke+Devrient</small> </div> <div style="border: 1px solid #ccc; padding: 2px 5px; font-size: 8px; background-color: #f0f0f0;">GOLD</div> <div style="text-align: center;">  <small>THALES</small> </div> <div style="text-align: center;">  <small>emmify</small> </div> </div>			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Open Gateway Summit	09:00–13:00	Partner Theatre 2, Hall 8.0	
	The Open Gateway Summit will explore the expanding number of network APIs and how API adoption can be accelerated. The session will also look at the impact of advanced network APIs on future services and how vertical industries are using network APIs to solve real-world problems.		
SPONSORS: <div style="display: flex; justify-content: space-between; align-items: center; padding: 5px;"> <div style="border: 1px solid #ccc; padding: 2px 5px; font-size: 8px;">PLATINUM</div> <div style="text-align: center;">  <small>shush</small> </div> <div style="text-align: center;">  <small>VONAGE</small> </div> <div style="text-align: center;">  <small>Aduna</small> </div> </div>			

Day 3: Wednesday 4 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Quantum Technology Summit	09:30–11:40	Lamarr Stage, Hall 6	
	The Quantum Technology Summit aims to realise the potential of quantum technologies within the broader telco industry. Here, experts will provide guidance on defining strategic planning and how to establish collaboration with industry and regulatory bodies.		

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Satellite and NTN Summit	10:00–12:30	GSMA Summits Stage, Hall 6	
	The Satellite and NTN Summit will explore the evolving convergence between satellite and mobile networks, highlighting strategies to scale adoption, enable seamless roaming, and deliver reliable connectivity for consumers and industries alike.		

SPONSORS:

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Smart Mobility Summit	10:00–15:45	Connected Industries Stage, Hall 4	
	The Smart Mobility Summit will explore how advanced connectivity is transforming mobility across air, land, and logistics. Experts will discuss real-world use cases highlighting how AI-driven insights and network APIs are enabling intelligent, adaptive, and automated mobility systems.		

SPONSORS:

Day 3: Wednesday 4 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
eSIM Summit	12:30–14:30	Theatre 4, Hall 8.0	
	The eSIM Summit will convene leading experts to explore how this technology is reshaping connectivity across consumer and IoT markets. We'll examine real-world deployments, discuss challenges and opportunities, and assess how emerging technologies may influence the next phase of eSIM scalability and security.		
SPONSORS:			
     			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
SEC CON	15:00–16:30	Lamarr Stage, Hall 6	
	SEC CON will focus on retailers becoming a national security issue due to an increase in supply chain-related cyber threats, as well as the rise in sophisticated scams and phishing attacks, many of which are powered or amplified by AI. The session will also include a showcase of innovative solutions companies have implemented to reduce cybersecurity incidents.		
SPONSORS:			
 			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Device Enablement Summit	15:00–17:00	Theatre 1, Hall 8.0	
	The Device Enablement Summit will unite operators, OEMs and partners to tackle fragmented device behaviours, drive interoperability, standardised testing and entitlement services, and accelerate seamless rollout of VoLTE, Wi-Fi Calling, 5G, eSIM and satellite messaging at scale.		
SPONSORS:			
			

Day 3: Wednesday 4 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Mobile Identity Summit	15:00–18:30	GSMA Summits Stage, Hall 6	
	<p>The Mobile Identity Summit will explore the progress made by the mobile industry in advancing digital trust. The Summit will showcase examples of successful propositions that solve identity challenges across sectors today, and feature thought leaders who explain the direction of mobile identity in the future.</p>		
SPONSORS: <div style="display: flex; justify-content: space-between; align-items: center; padding: 5px;"> <div style="border: 1px solid #ccc; padding: 2px;">PLATINUM</div> <div style="display: flex; align-items: center;">  <div style="margin-left: 10px;">TransUnion </div> </div> <div style="border: 1px solid #ccc; padding: 2px; background-color: #f0f0f0;">GOLD</div> <div style="display: flex; align-items: center;">  <div style="margin-left: 10px;"></div> </div> </div>			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Tower Summit	15:15–19:00	Partner Theatre 3, Hall 8.0	
	<p>The Tower Summit brings together operators, towercos, investors, and policymakers to explore how smarter collaboration can unlock cost efficiency, sustainability, and long-term resilience across the connectivity ecosystem. From advocacy to energy investment and in-building connectivity, the programme addresses the practical barriers to forging a new partnership-driven relationship today.</p>		

Day 3: Wednesday 4 March

Please note that all timings mentioned below are in Central European Time (CET)

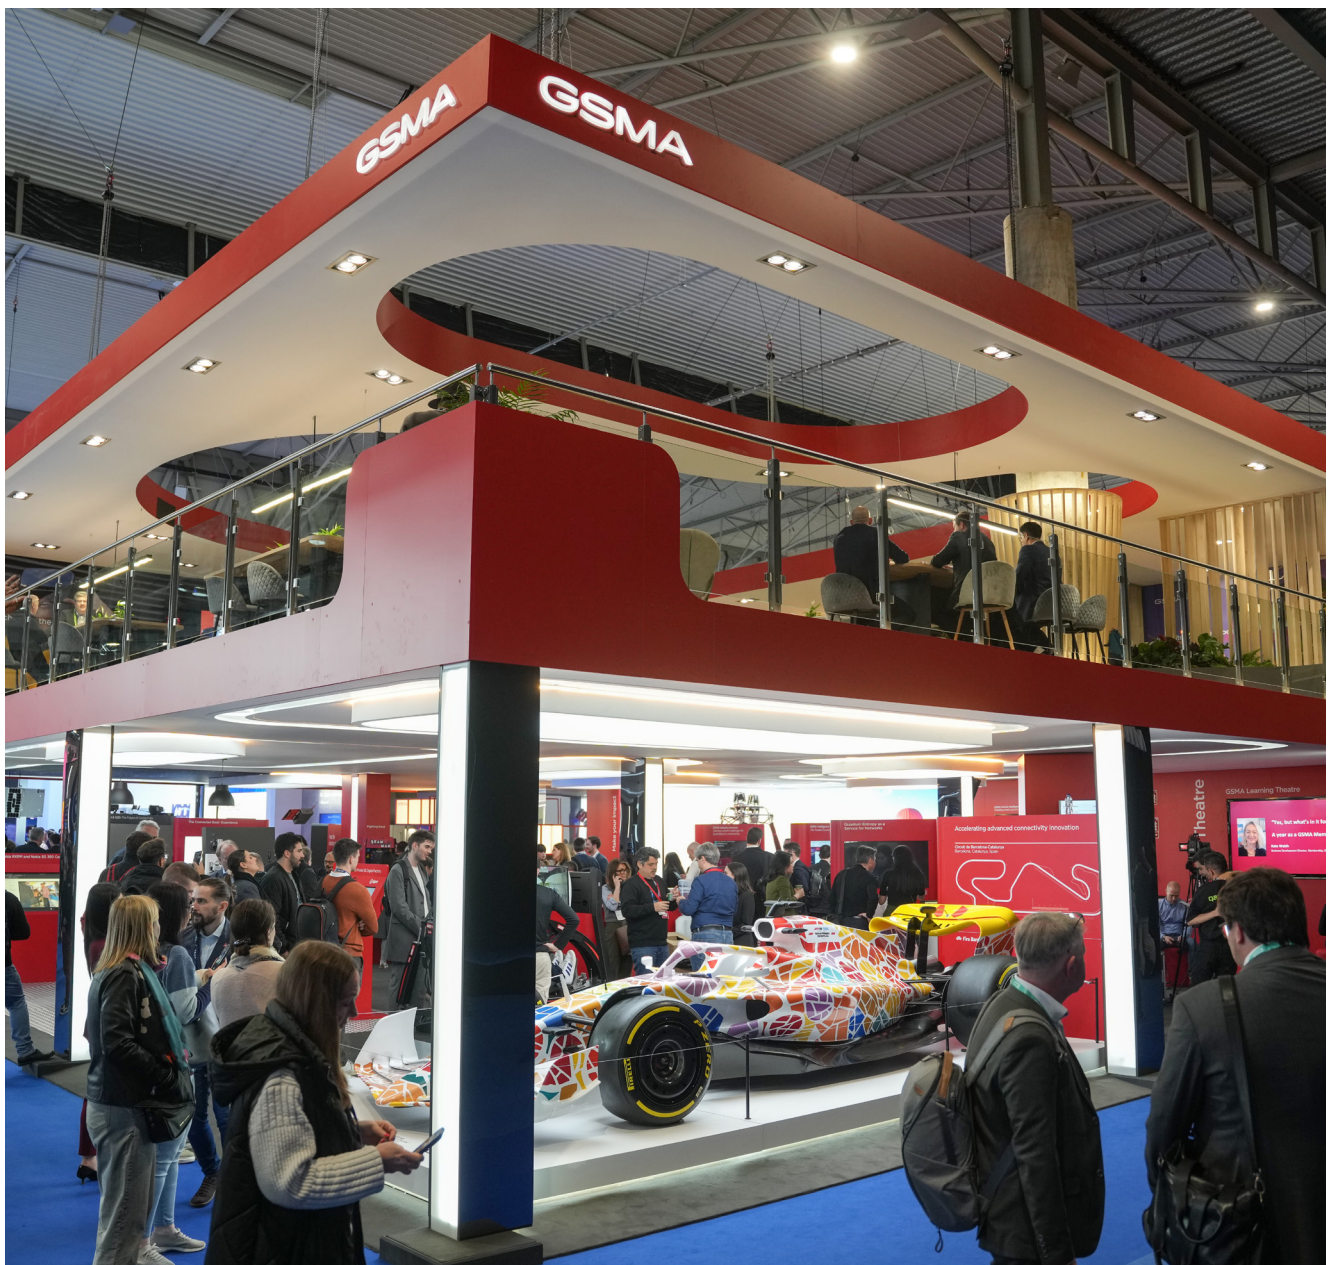

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
MVNO Summit	16:00–18:30	Theatre 4, Hall 8.0	
	The MVNO Summit will showcase leading MVNOs and their ecosystem partners who will outline what it takes to thrive and survive in a rapidly evolving market. We will delve into new growth strategies, emerging trends such as travel eSIM, customer-centricity and the technologies that will future-proof your MVNO business.		
SPONSORS: 			
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Masterclass: Turning Business Problems into Scaled Private 5G Value	16:15–17:30	Connected Industries Stage, Hall 4	
	Discover a practical, end-to-end view of the private 5G journey, guiding participants from business problem to scaled value. You will learn how to co-create a practical private 5G playbook and leave with clear frameworks to move from pilots to repeatable, scalable outcomes.		
SPONSORS:  			

Day 4: Thursday 5 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
<p>Sports and Entertainment Summit</p>	<p>10:00–14:00</p>	<p>Connected Industries Stage, Hall 4</p>	<p>↗</p>
<p>SPONSORS:</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="border: 1px solid black; padding: 2px 5px; font-size: 8px;">KNOWLEDGE PARTNER</div> <div style="font-weight: bold; font-size: 12px;">accenture</div> <div style="border: 1px solid black; padding: 2px 5px; font-size: 8px;">SUPPORTING SPONSOR</div> <div style="font-weight: bold; font-size: 12px;">MATSING</div> </div>			

GSMA Pavilion

**HALL 4
STAND 4F30**

The GSMA pavilion welcomes technology demonstrations from across its member ecosystem covering industry segments including healthcare, manufacturing, robotics, smart mobility, AI and fraud protection.

Alongside its members, GSMA will be presenting the very latest from Membership, Services, GSMA Foundry, Open Gateway, GSMA Intelligence, Connectivity for Good and more.

Visit the Pavilion in Hall 4 to find out more about GSMA and these emerging technologies and connected solutions.

GSMA Demos

➔ GSMA Membership

Discover how GSMA membership can transform your business, expand your network and help unlock barriers to growth.

➔ GSMA Industry Services

Uncover the latest from GSMA Services and how we are solving connectivity challenges, from devices to networks to assurance.

➔ GSMA Intelligence

Backed by the GSMA, GSMA Intelligence is the only data and insights source built from inside the mobile industry. We deliver trusted forecasts, real-time insights and deep research across the global mobile ecosystem from 5G, Open RAN and NTN to AI, IoT and beyond.

➔ GSMA Connectivity for Good

Explore insights and resources across Spectrum, Policy and Regulation, External Affairs and Mobile for Development.

➔ GSMA Open Gateway

Gain insight into a global framework of common network APIs that simplify access to mobile operator networks and help expose core capabilities of the open network to developers and cloud providers.

➔ GSMA Fusion

Find out how GSMA Fusion connects enterprises, mobile operators, and technology innovators to unlock the power of the mobile network through programmable network APIs (Application Programming Interfaces).

➔ GSMA AI Technology Programs, Tools and Assets

GSMA's latest AI technology projects, tools and assets for our members and communities.

Innovations in Scam Prevention

The innovations in scam prevention area will showcase a selection of use cases from companies who have implemented anti-scam solutions, including KDDI, Bharti Airtel, Turkcell, and Apate.ai, as well as some of the latest innovations in anti-scam measures, including proofs-of-concept (PoCs) such as Open Verifiable Calling, Trusted Caller Identity, and Virginia Tech Scam Bot Detection.

The Future of Connected Motorsport

Experience the speed and precision of Formula E through an immersive racing simulator. Discover how advanced connectivity and real-time data help power electric motorsport, bringing fans closer to the action than ever before. Visit Hall 6 to see a full-sized Formula E race car.

NUHS 5G AI-Embodied Hospital

NUHS showcases the future of healthcare powered by AI and 5G, in collaboration with Ericsson and Singtel. At the heart of the experience is an intelligent robot nurse, demonstrating how AI and connectivity are redefining patient care. Highlights also include 3D holographic surgical planning using Microsoft's HoloLens 2, AI-driven AR for precise vein detection, and next-generation hospital-at-home technology enabling care beyond hospital walls.

AI-Powered Edge for Smart Factories

Capgemini will present an end-to-end smart factory demo, featuring vision-guided robotics and AI-driven quality control. You'll see a UR3 robotic arm performing flexible operations with interchangeable grippers, while an AI-powered computer vision system carries out real-time quality inspections. All activities are monitored through a live dashboard and coordinated across multiple stations via edge-enabled automation.

Build Your Fraud-Fighting Agentic AI Team

Infobip's interactive demo lets visitors lead a mission to stop banking fraud. Build and direct a team of AI agents, equip them with key skills powered by Network APIs and communicate with them through RCS messaging. Watch them collaborate behind the scenes to verify identities, detect fraud, and personalise customer engagement.

Private 5G Flexible Manufacturing Operation

This demo explores next-generation manufacturing powered by private wireless and edge computing. Visitors will experience a flexible, cell-based 'lot-size 1' production model through a robotic-arm demo representing one manufacturing cell. The process highlights coordination between robots, AMRs, workers, and tools, with real-time, paperless workflows and visual inspection animations.

Elmo-WeAreTeledriving

The demonstration showcases Elmo's teledriving which uses 5G connectivity to enable remote driving of a car at the Circuit de Barcelona-Catalunya and a back-up vehicle in Estonia. To drive successfully, the teledriver requires good bandwidth and a maximum latency of 200ms (0.2s) to operate the car safely.

This year's demo reframes programmable connectivity from a single feature QoD showcase, to a complete 'art of the possible' journey for connected mobility.

The Future of Trade-In

Experience the next generation of the circular economy with our Conversational Trade-in AI Agent. Moving beyond static forms, this demo showcases a fully interactive, 'Agentic Commerce' journey where visitors engage directly with an AI assistant to value used devices.

GSMA Industry Services

NetLync

Demonstrating how GSMA Entitlements enables operators to activate and scale advanced device services seamlessly

Jaggo

Showcasing how IR.25 GSMA certification accelerates device readiness, reduces costs, and improves operator network quality

Device Atlas

An interactive scan-and-explore experience revealing the true capabilities, authenticity, and insights behind any mobile device

Invigo

Demonstrating Automatic Device Management, powered by GSMA Device Database

GSMA Services Partnership Program

Metafore

Metafore uses AI agents to orchestrate enterprise operations—transforming fragmented workflows into one intelligent system.

GSMA Membership

FiboCom Wireless Inc.

Global Leading Provider of AIoT Modules and Solutions

Fraunhofer IIS and Nokia

Shaping globally deployed standards in the media field

Eastcompeace Technology Co., Ltd

Building a secure and connected life

GlorifAI

Delivering ROI with AI for every step of your customer lifecycle

GSMA Open Gateway and Fusion

This years Open Gateway and Fusion demo partners are showcasing exciting new use cases featuring advanced communication quality APIs and in particular the quality-on-demand (QoD) API that allows uses to request specific network quality to support their services.

Mplify

Agentic Connected Experience: Orchestrating Communication Quality for Mobility Solutions

Shabodi

Boost Button using Quality on Demand (QoD)

AECC

Network APIs for Connected Vehicles and the Mobility Industry

Türk Telekom

Quality-on-Demand (QoD) Drone Management System

GSMA Open Gateway

Introduction to the Developer Sandbox

GSMA AI Technologies

Demos including AI LLM Benchmarking Project/Leaderboards, Proof of Concept TelecomGPT, Agentic AI Roadmap and White Paper, Mobile AI Community and Open telco AI Assets: GSMA working in collaboration with AT&T, AMD, Huawei and Academia to launch the largest ever open-source telco specific model.

Explore Even More at New Frontiers in Hall 6

Visit the European Space Agency (ESA) and GSMA Foundry NTN Showcase stand in New Frontiers, Hall 6, to explore the innovation challenges launched at MWC25 Barcelona, spanning direct-to-device (D2D) advancement, 6G innovation, 5G / 6G testing hubs, and fixed-mobile network integration. Discover how these challenge partners are delivering global impact through pioneering solutions to critical connectivity challenges; Accedo, AutoDiscovery, AWTG, Celeste, Filtronic, Keysight / Sateliot, Lasting Software, MediaTek / Rohde & Schwarz, Microamp, MinWave Technologies SA, NextWorks, Nokia, OQ Technology, Photon Engine and Qoherent.

CircuitX is the three year-initiative designed to champion mobile technology across motorsports and transform the circuit experience with connectivity. The CircuitX Demo zone showcases advanced technology and connectivity solutions from leading partners: Al Kamel, Barcelona Drone Center, Ericsson, Formula E, Into Reality, MatSing and NTT DATA. Come and explore the future of event communications and motorsport innovation through expert sessions and demonstrations. Discover how mobile connectivity transforms how millions of fans connect, engage, and experience every moment around the track. Also, visit the New Frontiers Stage to see the daily CircuitX partner sessions.

GSMA Open Gateway and Fusion

Day 1: Monday 2 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Open Gateway Roundtable: Accelerating API Adoption	09.00–11.00	GSMA Insights Hub, Room CC2.5	
	<p>Building on the momentum of the Doha Open Gateway Summit, this round table explores the next frontier in telecom innovation: advanced network APIs.</p> <p>With capabilities like Quality-on-Demand (QoD), Simple Edge Compute, Connectivity Insights, Home Device QoD and Network Slice Booking, operators can use APIs to dynamically programme networks to meet evolving industry needs and create new revenue sources.</p>		
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Talent Arena Open Gateway Hackathon	Mon 2 March 09.00–18.30	Fira Montjuic, Talent Arena The Hackathon Zone	
	Tue 3 March 09.00–15.00		
SPONSORS:		NOKIA	

Day 1: Monday 2 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Open Gateway Roundtable: Channel Partner Innovation	11.30–13.30	GSMA Insights Hub, Room CC2.5	
	As the Open Gateway initiative enters a new phase of global adoption, this round table brings together GSMA's channel partners to accelerate the next wave of network API innovation and commercial success. Join industry leaders, innovators, and network architects for a focused, interactive session designed to turn global opportunity into repeatable, partner-led execution.		
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Fusion Roundtable: Automotive	14.00–16.00	GSMA Insights Hub, Room CC2.5	
	As vehicles evolve into software-defined platforms and autonomy, safety, and immersive in-car experiences become mainstream, the automotive sector faces a defining moment. Seamless, reliable connectivity is no longer enough and the future of mobility depends on programmable networks, standardised APIs, and assured performance that can scale globally across fleets and markets. This automotive roundtable brings together senior leaders from the mobility ecosystem and mobile network operators to align on a practical, forward-looking roadmap for network-enabled next-generation mobility.		
EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Fusion Roundtable: Aviation	16.30–18.30	GSMA Insights Hub, Room CC2.5	
	As drone operations move from pilots to critical national infrastructure, the aviation sector faces a pivotal moment. Regulatory clarity, trusted digital identity, and assured network performance are no longer optional; they are foundational to scaling beyond visual line of sight (BVLOS) operations safely and commercially. This aviation roundtable brings together aviation regulators, drone operators, and mobile network leaders to align on a practical, near-term roadmap for network-enabled drone eConspicuity (Digital Identity).		

Day 2: Tuesday 3 March

Please note that all timings mentioned below are in Central European Time (CET)

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Talent Arena DevCon	15.00–18.00	Fira Montjuic, Talent Arena XPro Stage “The Chamber”	
	<p>The GSMA Open Gateway DevCon 2026 is back at the Talent Arena – bigger, bolder, and built for developers who want to shape the future of connected experiences.</p> <p>Over three dynamic hours, dive into live demos, real-world use cases, and insider knowledge from the developers, startups, and mobile operators leading the network API revolution. Discover how you can tap into the power of the world’s mobile networks to build apps that connect deeper, scale faster, and deliver smarter experiences.</p>		

Day 3: Wednesday 4 March

Please note that all timings mentioned below are in Central European Time (CET)

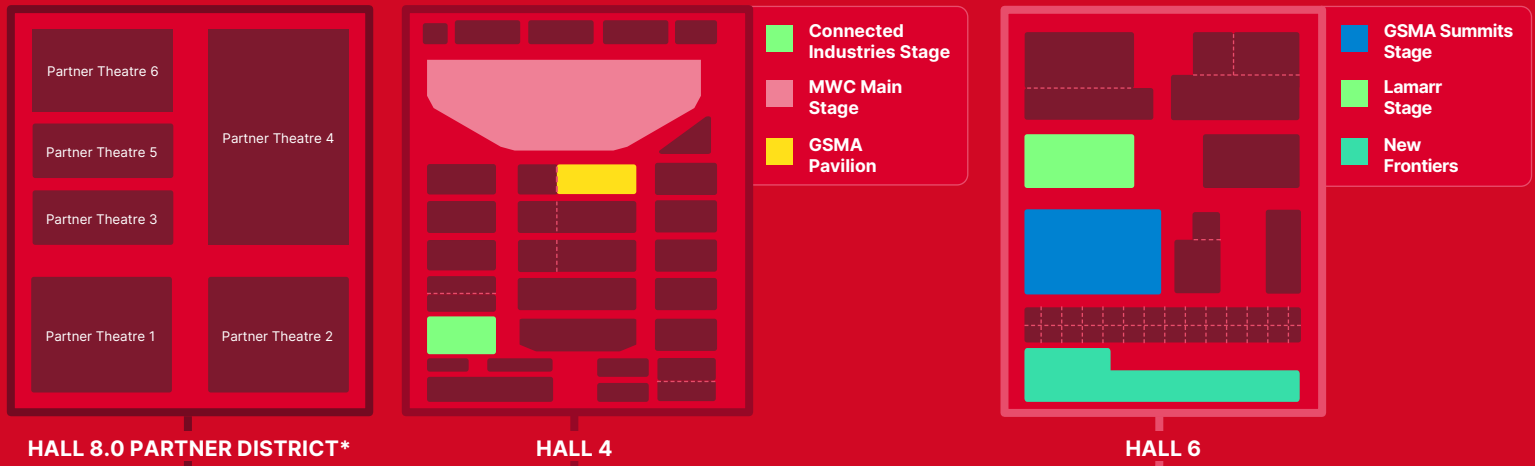

EVENT	TIME	LOCATION	LEARN MORE AND REGISTER
Open Gateway Summit	09.00–13.00	Partner Theatre 2, Hall 8.0	
	<p>The GSMA Open Gateway Summit will evaluate the progress of GSMA Open Gateway as it enters its third year and ask what still needs to be done to accelerate adoption of network APIs within the industry. A key focus of the summit will be the evolution of the network API ecosystem including the role of mobile network operators, aggregators, channel partners and developers in driving the adoption of standardised network APIs.</p>

Benefit from company membership of the GSMA, the global organisation representing the entire mobile industry...

Shape the future and get informed via GSMA Working Groups

- Collaborate and influence mobile industry standardisation and solution development
- Examples include eSIM, Fraud & Security, Post-Quantum, Roaming

Innovate more effectively via the GSMA Foundry

- Mobile innovation and cross-industry collaboration projects
- Creating solutions, nurturing new ideas, driving scale

Engage with technology, industry and regional communities

- Best practice, insights and building partnerships
- Includes fintech, manufacturing and private networks

Participate in global industry initiatives

- Connecting carriers, developers and enterprises
- e.g. GSMA Open Gateway for network APIs access

Connect globally via the GSMA membership platform

- Connect with 10,000+ industry professionals
- Collaborate and build strategic relationships

Amplify your brand using GSMA channels

- Share your organisation's press releases at gsma.com
- GSMA Member Directory listing

Use the GSMA Member logo

- Use in RFX responses and on your website
- Demonstrate you are part of the global family

Benefit from GSMA event discounts

- For MWC Barcelona exhibition spaces
- On delegate passes for all MWC events

For more information on company membership of the GSMA, please scan the QR code:
