The information contained in this document may be subject to change without prior notice. This document has been classified according to the GSMA [Document Confidentiality Policy](#).

**1. GSMA Antitrust Policy and Agenda**

GSMA Anti-trust and US entity list statement were noted.

Agenda for the meeting was approved

**2. OPG#102 Meeting minutes**

No comments were made.

Minutes of OPG#102 were approved.

**3. Action Points**

OPG97.2 – remains open, participating parties are asked to confirm whether they are fine with the proposed

OPG 100.01 – communication initiated

OPG 100.02 – has happened and could be closed, but is kept open to reflect the dependency of other actions on the finalisation of the LS

OPG 101.02 – Volunteers called for to work on CR. Neal volunteered. Neal will lead actions in the next OPG Call.

**4. Release Planning**

Tom reminded that there were 3 documents under formal OPG review and that they would be up for formal approval in OPG#104. Comments to those should be brought as soon as possible to allow them to be addressed, especially on OPG.03 that would be important due to absence of the editor from the end of the week onwards.

## 5. LS to SA6

Detailed discussion and online editing in the meeting of the working draft of the document. Discussion started from Q5 with the intention being that the background section is updated afterwards to reflect just what is required to support the responses to the questions. Most responses were simplified to focus on edge node sharing and avoid confusion coming from other topics being opened. For Q6 some of the content is to be moved to the section on questions from OPG to 3GPP SA6. On Q11, some of the background that was provided would be covered in a future, separate LS to 3GPP SA6 on mapping of OP to EDGEAPP in general rather than in a reply focussing on Edge Node sharing.

Following actions were assigned:

- Related to Q6:
  - o **Action:** Sandra, Tom, Niranth and Vijay to study EDGEAPP in the context of edge node sharing
- Related to Q7
  - o **Action:** Vijay and Niranth to study the support EES and ECS for edge node sharing.

The discussion will continue in an ad-hoc call on Thursday following a shortened OPAG meeting. It will start from the questions for 3GPP SA6 and would also look in the Background section to see what content is relevant still to support the responses provided to the questions. OPG members are invited to review and comment those sections in advance to ensure that the LS can be closed and sent to 3GPP as soon as possible.

## 6. AOB

F2F meeting in September on 28 and 29<sup>th</sup> will be held in France.

- Hôtel Mercure Paris Porte de Versailles Expo
- Address: 36 38 Rue du Moulin, 92170 Vanves, France
- **Dates:**
  - 28 September 09:00-18:00 OPG
  - 29 September 09:00-17:00: OPAG
- Registration links are provided in OPG\_103\_Doc\_01 and people intending to attend on site should register.
- targeting 1 day OPG and 1 day OPAG and no TEC Forum meeting

**#102 Call closed at 15:00 BST**

### Action points log

#### Open action points

Action number	Description	Status	Notes
---------------	-------------	--------	-------

OPG 97.02	Sandra to contact parties that expressed interest in roaming scenarios in combination with Network Slicing and prepare use cases.	Open	The communication was initiated, but few reactions had been received
OPG 100.01	Sandra to start an offline discussion involving Fernando, Masaharu, Bart and Mario to clarify the OP's role in the management of the subscription (including flow charts)	Open	Offline conversation has started and is ongoing
OPG 100.02	Mark to start offline thread to organise preparation of response to 3GPP SA6 LS	Open	Presented in this meeting. Ongoing discussion due 18 <sup>th</sup> August
101.01	Regarding the SA6 LS and work on edge node sharing. Sandra will contact GSMA FASG Chair	Open	
102.01	Sandra will set up a meeting between Sandra, Tom and Neal about actions on AP 101.02	Open	
102.02	Sandra will raise a CR regarding edge definitions following the reply to the LS question 2	Open	
102.03	Deepak and Niranth will create a maintenance CR on explanations on Q3 from LS on sharing	Open	
103.01	Sandra, Tom, Niranth and Vijay to study EDGEAPP in the context of edge node sharing	Open	
103.02	Vijay and Niranth to study the support EES and ECS for edge node sharing.	Open	

### Closed action points

Action number	Description	Status	Notes
101.02	TEC Forum request for "Network resource Location" will need work to draft a CR. Volunteers sought before meeting #102	Closed	Neal Volunteered, Will be discussed in OPG#103
