	Hubert Mariotte	hubert.mariotte@orange.com	
	Nishant Gupta	gnishant@qti.qualcomm.com	
	Fernando Pascual Blanco	fernando.pascualblanco@telefonica.com	
GSMA Attendees:	Daniel Okonkwo Mark Cornall Toyeeb Rehman	dokonkwo@gsma.com mcornall@gsma.com trehman@gsma.com	
Other Attendees:			
Absent / apologies:	Sandra Ondrusova Miguel Alejandro Hernandez Armengol	sandra.ondrusova@hwleurope.com miguelalejandro.hernandezarmengol@telefonica.com	

ALL GSM ASSOCIATION MEETINGS ARE HELD IN ACCORDANCE WITH THE GSMA'S [ANTI-TRUST](#) AND IPR COMPLIANCE POLICY

Security Classification		
Non-Confidential	Project Team or Group	X

© GSMA, 2023. The GSM Association ("Association") makes no representation, warranty or undertaking (express or implied) with respect to and does not accept any responsibility for and disclaims liability for the accuracy or completeness or timeliness of the information contained in this document. The information contained in this document may be subject to change without prior notice. This document has been classified according to the GSMA [Document Confidentiality Policy](#).

1. GSMA Antitrust Policy and Agenda

GSMA Anti-trust and US entity list stated were noted.

Agenda for the meeting was discussed and agreed.

2. OPAG#72 Meeting minutes and Actions

Minutes of OPAG#72 were approved.

Action points were reviewed. Action OPAG 60.06 is work in progress.

3. MWC Las Vegas release SBI-NR updates

Mark presented OPAG_73_DOC_03. The consolidated CR with all changes completed from OPAG#72. Milan reviewed online as final check.

Document was presented for approval:

Document Approved with no further comments. Will proceed to OPG for next stage approval

4. MWC Las Vegas release E/WBI updates

Deepak presented OPAG_73_Doc_04. The consolidated CR.

No further comments and document was presented for approval.

Document was approved and will proceed to OPG for next stage approval

5. MWC Las Vegas 23 release planning

Mark provided an overview of the planning for the MWC Las Vegas 23 release of the OP specifications.

Mark presented the timing for the Barcelona 24 release highlighting that we are in the prioritisation phase for next work packages. OPG will need to concentrate on the documents that will need to be amended as part of that release.

6. 3GPP SA6 LSs

Mark read through inbound LSs from SA6.

- LS on Reply LS on 3GPP TR 23.700-98 v1.2.0 Analysis
- LS to GSMA on publication of GSMA OPG and OPAG documents

Were read through and had no additional comments or a need for reply.

- LS for Clarification on Federation Identifier

Was read through. Prior to the meeting Deepak has prepared a draft response. In OPAG_73_Doc08. Deepak presented and the following comments were made:

Deepak explained the usage of the Federation ID and the Federation Context ID also pointing out that there is no authority that issues Federation IDs to ensure they are unique.

A Federation ID refers to an Operator Platform instance.

A Federation Context ID refers to a one-way relationship between two Operator Platforms.

Deepak pointed out that there is a backlog item to discuss the Federation ID response and notes that the Federation ID is now Optional and agreed by federating Operator Platforms.

Nishant commented that the document was useful to SA6 and asked for an explanation of what a Federation ID and a Federation Context ID is and how they are used.

Deepak will add to the response.

Nishant commented that if the Federation ID actually refers to the Operator Platform then there may be sense in renaming. This should be brought as a maintenance Change in OPAG and discussed later.

Toyeeb noted that Federation ID and Federation Context ID could be served by OAuth2 functions.

Deepak will update the LS response and present in the next meeting for comments.

7. SliceTF: User Profile Provisioning

Masa introduced OPAG_73_Doc_09, a study on User Profile provisioning. The presentation was very detailed and noted that existing requirements are mostly already covered. There is no further work to happen in this regard now.

There were no significant comments. If comments to come then please discuss with Massa offline.

8. AOB

Nominations for a deputy-chair for OPAG and a SliceTF leader were invited.

Next meeting will be OPAG#74 scheduled on 29th June

Dates for future F2F meetings were communicated again: 16-19 October 2023, 11-15 March 2024 and 3 to 6 September 2024. Candidates interested in hosting those meetings are invited to make their interest known. OPG's survey for topic selection includes a question on attendance.

Participants were invited to think about topics that they could own or contribute to for the MWC Barcelona 24 release.

Mark provided an overview of the Open Gateway activities. Workshop was held on 16th June where two options for API call forward was presented.

A new workshop is planned in London to conclude and decide on that API forward method and then move onto other topics needed for Open Gateway

OPAG members are invited to comment. Parties intending to join the workshop in person should register with Olu Omobitan (oomobitan@gsma.com) to be guaranteed a seat. It was asked which other topics would be covered. That depends on progress till the workshop, but they will normally come from the priority topics communicated in OPAG#70

#73 meeting closed at 15:30 BST

Action points log

Open action points

Action number	Description	Status	Notes
OPAG 60.06	Miguel to liaise with the CAMARA project leads on whether they can introduce their API(s) to OPAG for the purposes of supporting federation and mapping to the SBI	Ongoing	QoD and Edge covered already
