

IoT WebTalk

# The Power of Partnership: **CLEAR SKIES AHEAD FOR MOBILE-ENABLED AVIATION**

Wednesday, 24 March 2021 | 08:00 PDT | 11:00 EDT | 15:00 GMT

# Polls & QA

The screenshot displays a BlueJeans webinar interface. The main content area shows a presentation slide titled "GET STARTED" with the subtitle "Your quick start to version 2.0". The slide features a cityscape background, a blue geometric logo, and the date "08 23". Below the slide are three small video thumbnails of participants. The top status bar indicates "Marketing Webinar", a duration of "00:00:36", and status icons for "RECORDING ON" (red dot) and "BROADCAST ON" (green dot), along with "1 ATTENDEE". On the right, a sidebar shows a list of participants under the heading "Participants". The list includes "Presenters (10)" and a scrollable list of names: Mike, Carol, Greg, Peter, Bobby, Marsha, Jan, Cindy, and Alice. Each name has a small video icon to its right. Above the list is a search bar and a "Polls" icon (a ballot box). Below the list is a "Q&A" icon (a speech bubble). Two yellow arrows point to these icons, with the text "Polls" and "Questions & Answers" next to them. The BlueJeans logo is visible in the bottom right corner of the interface.

# Agenda

<b>15:00</b>	Introduction	Barbara Pareglio, <b>GSMA</b> Pawel Trominski, <b>GUTMA</b> Christopher T. Kucera, <b>OneSky</b>
<b>15:10</b>	How to develop enablers for aviation in 3GPP standards?	Stefano Faccin, <b>Qualcomm</b>
<b>15:15</b>	How cellular can enable BVLOS operations?	Gerry Libunao, <b>Verizon</b>
<b>15:20</b>	What data can MNOs offer for BVLOS flights?	Thomas Neubauer, <b>TEOCO</b>
<b>15:25</b>	How to integrate cellular enabled UAS into aviation?	Boris Resnick, <b>GLONASS Union</b>
<b>15:30</b>	Panel and Q&A, moderated by Barbara Pareglio, GSMA	All speakers and ACJA Board Members

# The GSMA in numbers

**1987**

The GSMA  
was founded

**12**

offices  
worldwide

**93m**

lives impacted through  
Mobile for Development

**2016**

we're the first sector to commit  
to the UN Sustainable  
Development Goals

GSMA Membership:

**750+**

mobile  
operators

**400**

companies in the  
broader ecosystem

Nearly **200,000**

attendees worldwide come  
to our MWC and Mobile  
360 Series events

Connecting **23,000**  
industry experts through  
InfoCentre2

**10.1bn+**

cellular connections  
worldwide (including IoT)

**5.2bn+**

unique mobile  
subscribers

**\$600bn**

annual 5G contribution to  
global economy in 10 years

**75%**

of the global fixed broadband  
market is represented by  
GSMA members

Over **600**

meetings in the past year  
amongst the GSMA  
Working Groups

# About GUTMA

---

- **MISSION:** To support and accelerate the transparent implementation of globally interoperable UTM.
- **UTM PURPOSE:** To foster the safe, secure, efficient and affordable integration of drones into national airspace systems.
- **GUTMA MEMBERS:** In over 30 countries across 6 continents, our diverse membership represents the entire UTM ecosystem.

## GOALS:

Empower a  
harmonized global  
digital UTM ecosystem

Enable more UTM  
flights than ATM

Trusted source for  
UTM knowledge

## Aerial Connectivity Joint Activity (ACJA)

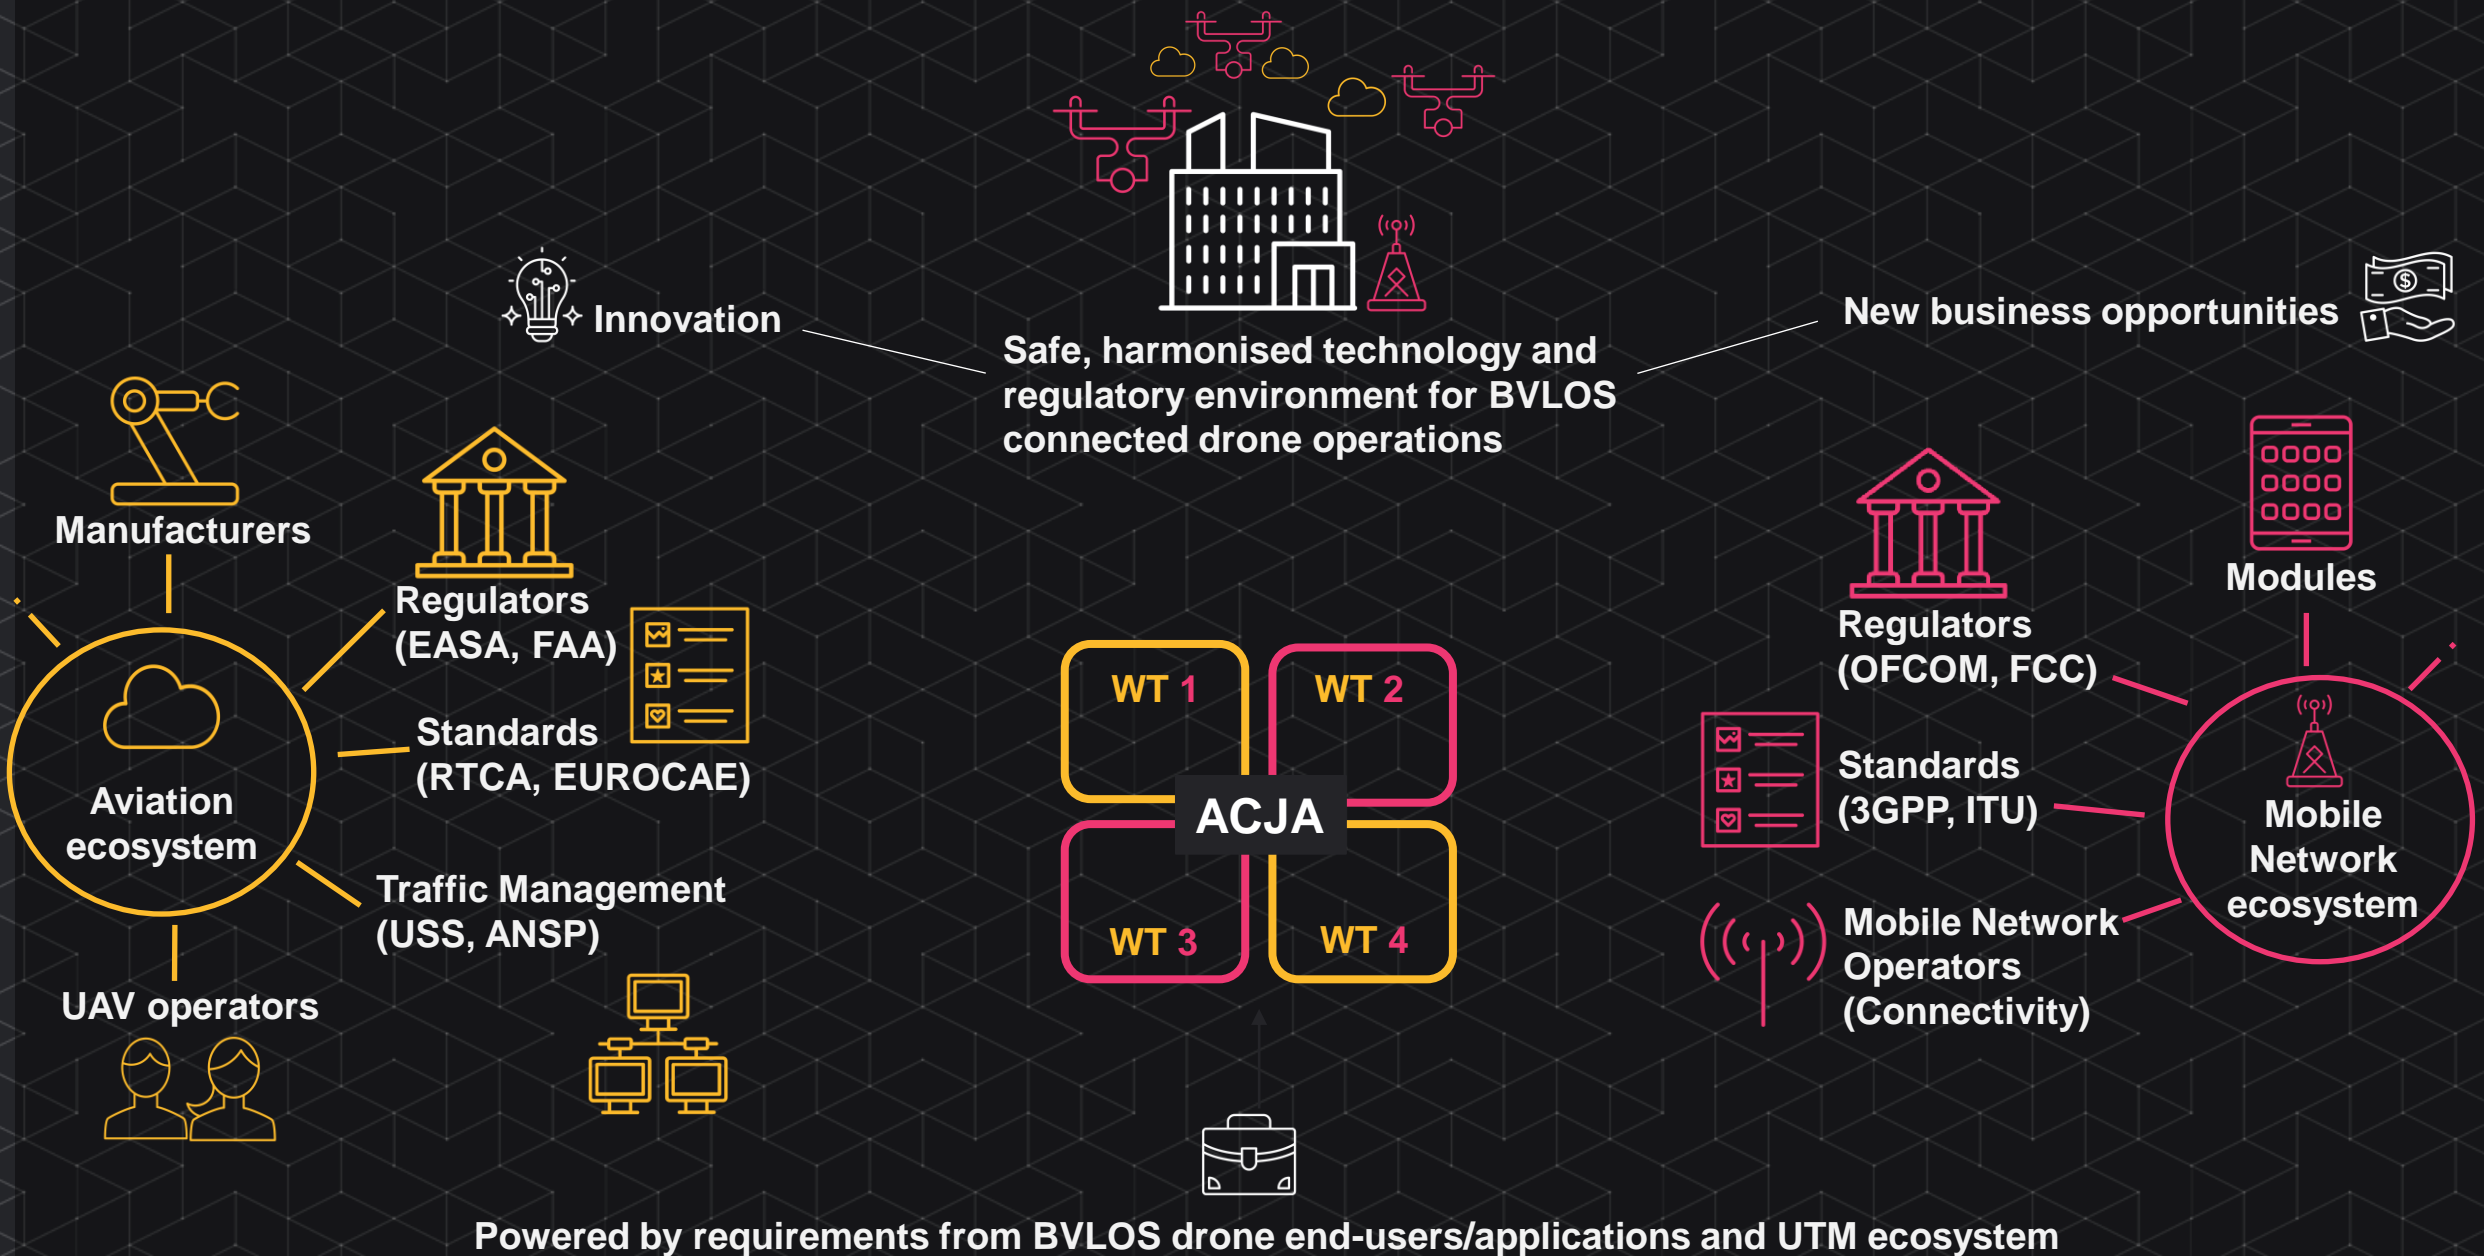

[www.gsma.com/aviation/](http://www.gsma.com/aviation/)

[www.gutma.org/acja/](http://www.gutma.org/acja/)

# ACJA Work Task 1

## Cellular Standard Coordination

WT 1 Lead  
**Stefano Faccin**  
Qualcomm

### Purpose

C2 connectivity, Broadcast & Networked Remote ID, Detect and Avoid, Interface between the USS and MNOs (service exposure and interfaces), Use of cellular for UAS communications

Integrate cellular standards with aviation regulations and standards

### Achievements

White paper capturing requirements for integration of aviation services and cellular MNOs to support BVLOS

### Future plans

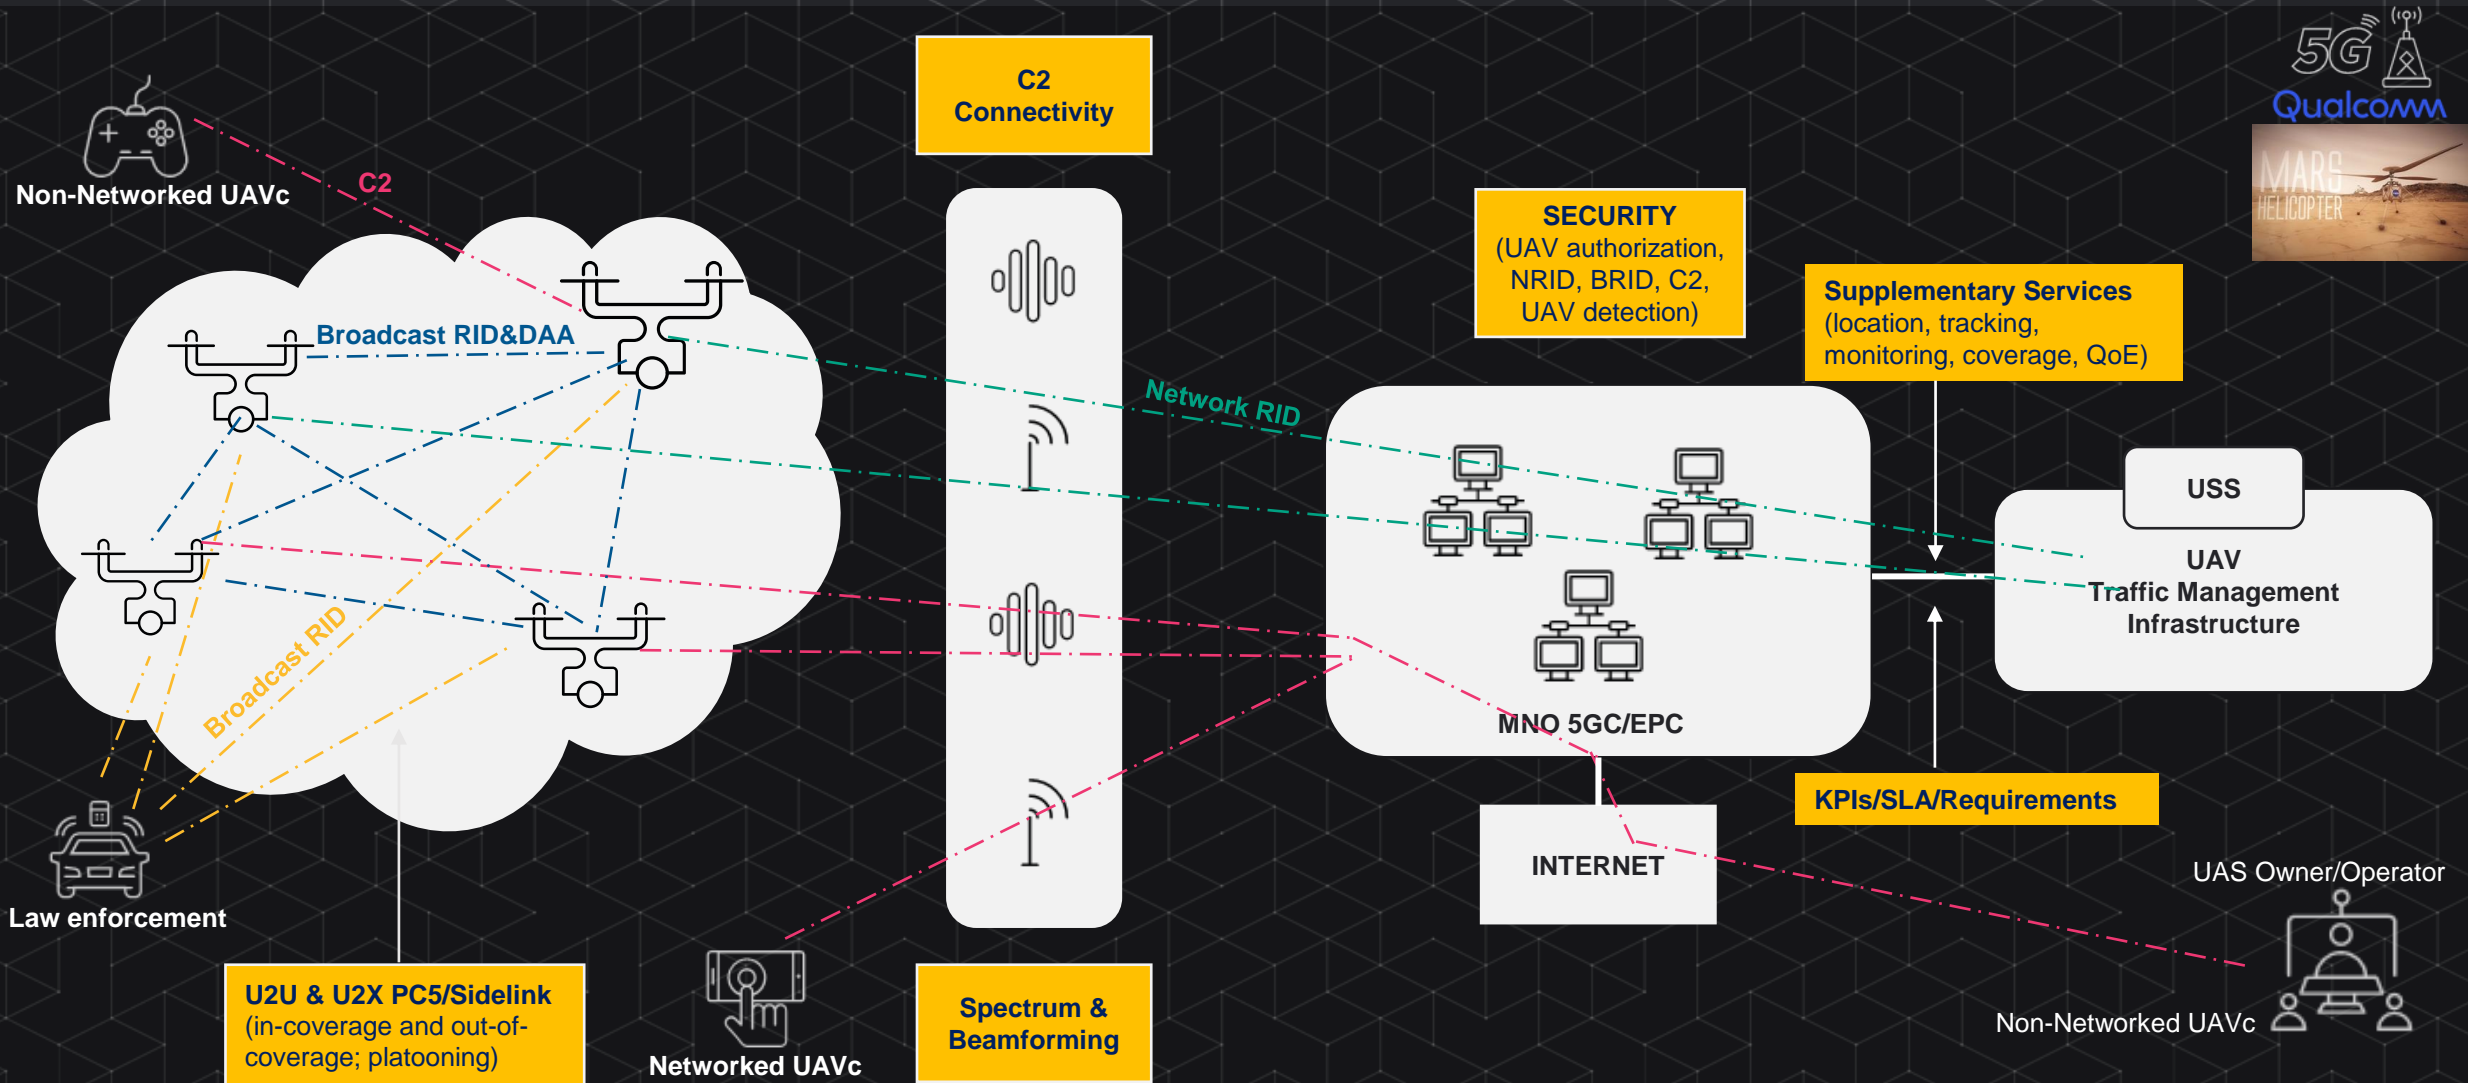

Further enablers for BVLOS support via cellular MNOs (C2 and Remote ID)

Cellular enablers for Detect and Avoid

Use of cellular PC5 for UAV2UAV and UAV2 "anything" connectivity

# UAV Connectivity Framework and the 3GPP Ecosystem

# ACJA Work Task 3

## Standard Aerial Service Profile

WT 3 Lead  
**Gerry Libunao**  
Verizon

### Purpose

Define cellular network connectivity profiles for aerial services

### Achievements

Industry whitepaper on LTE aerial user-to- network (UNI) base profile

### Future plans

WT dormant pending completion of standards for:

- 5G NR support of UAVs in 3GPP
- LTE MOPS in RTCA and EUROCAE

LTE aerial work transferred to GSMA – guidelines for LTE UNI profile, roaming and network Interconnection support of aerial services

DOWNLOAD

# ACJA Work Task 2

## Data exchange between MNOs and UTM

WT 2 Lead  
Thomas Neubauer  
TEOCO

LinkedIn

CONFIDENTIAL © GSMA 2021

### Purpose

Global data exchange btw MNOs & drone ecosystem

Needed for pre-flight, in-flight and post flight data exchange

### Achievements

Delivered a globally harmonized Network Coverage Service Definition for connectivity data & ground risk data

### Future plans

- Deploy Network Coverage Service
- Measure thresholds & requirements
- Monitoring & logging formats & needs

DOWNLOAD

## ACJA Work Task 4

### Development of MOPS & MASPS

WT 4 Lead  
**Boris Resnick**  
GLONASS Union

LinkedIn

#### Purpose

Interface between ACJA & wider telecom community & aviation SDOs (e.g. RTCA, EUROCAE) for enabling UAS communication adoption and ensuring safe deployments based on performance-based requirements

#### Achievements

Draft minimum operation performance paper for UAS communications by 4G/LTE mobile network as an input towards EUROCAE WG-105 and RTCA SC-228 standards

#### Future plans

**2021:** Architecture & use cases for 4G LTE UTM connectivity white paper

**2022:** MOPS definition & use cases for 4G/LTE C2 connectivity

**Beyond 2022:** MOPS for 5G connectivity

# Panel Discussion

**Peter Musgrove**

Lead Member of Technical Staff

**AT&T**

**Boris Resnick**

Deputy Technical Director

**GLONASS Union**

**Barbara Pareglio**

Senior Director, IoT Technology

**GSMA**

**Pawel Trominski**

Project Manager

**GUTMA**

**Thomas Eder**

Senior Engineering Manager

**Nokia Digital Automation**

**Christopher T. Kucera**

Co-Founder and Head of  
Strategic Partnerships

**OneSky**

**Stefano Faccin**

Director of Technical Standards

**Qualcomm**

**Eric T. Ringer**

Co-founder and Chief of Staff

**Skyward, a Verizon company**

**Thomas Neubauer**

VP, Business Development

**TEOCO**

**Gerry Libunao**

Distinguished member of the  
Technical Staff

**Verizon**
