CONNECTED. PROTECTED.

SIMple Opportunities for IoT

The @ Company

Telecoms

Solution

=

Evolution

Cooperation

*Under appreciated
under publicized,
under utilized,
underestimated.*

*Security and Trust,
Simplicity,
Flexibility,
Control.*

Collaboration

Device

Network

Application

True End-to-End Encryption - "Device to hand" →

Device

Network

Application

Security and Trust

*Tamper proof root of trust,
Device administration,
Remote secure enablement,*

Simplicity

*Zero Touch provisioning,
Ubiquitous Access,
Standardized for full ecosystem
Operators, Device manufacturers, SIM vendors....*

Flexibility

*Choice of Provider,
Add or Remove functionality,
Device design (form factor),
SIM can evolve with solution or
circumstances,*

Control

The user or enterprise has more control.

Control

The user or enterprise has more control.

“Telco must become an active, integrated member of the IoT ecosystem”
