Ni kitu gani?

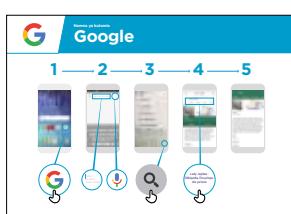

Onesha Google Search kwenye simu

“Google Tafuta inakusaidia wewe kutafuta taarifa unazozitaka. Eleza Google taarifa unazotaka kutafuta mf. ‘kuna watu wangapi Keko?’ na itatafuta taarifa zote ambazo watu wameweka kwenye intaneti, ili kukupatia unachotaka.”

Utaitumiaje?

“Unaweza kupata taarifa za kazi, aina za mapishi, sinema za Bongo movie, nyimbo, habari, taarifa za shule, chuo, mitihani n. k.”

“Uhitaji kwenda popote kupata taarifa, zote zinapatikana kwenye intaneti ndani ya simu yako.”

Mkufunzi: Toa mifano yako binafsi kwa kila dondo, kama una muda

Iwe mwafaka kwa mwanafunzi: jadili jinsi Google tafuta inavyoweza kuwa na manufaa kwenye maisha ya mwanafunzi

Onesha kipeperushi na uoneshe jinsi ya kutafuta mf. tafuta alama maarufu maeneo ya karibu kama vile kanisa, au mtu maarufu kama vile mchekeshaji Joti

Elezea “Kipaza sauti kinaweza kutumika kutafuta sauti. Huhitaji kuandika maneno yoyote.”

Onesha kwa vitendo kipaza sauti: kiko wapi na kinatumikaje

Mazoezi!

“Sasa unaifahamu Google, ungependa uitumie kwa ajili gani?”

Wape wanafunzi maneno ya msingi ya kutafuta kulingana na utashi wao (jaribu kutumia utafutaji rahisi, tumia maneno 1-2 tu).

Dondoo: “Kuna taarifa nyingi na muhimu kwenye mtandao wa intaneti, kuna baadhi sio muhimu, nyingine sio za kuaminika. Ni vizuri zaidi kuangalia matokeo 2-3 ili kupata majibu yaliyo sahihi zaidi ya kile unacho kitafuta.”

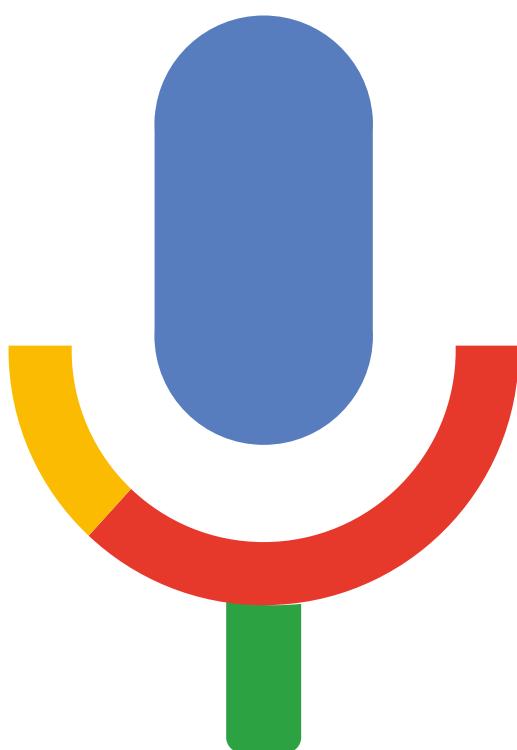

Elezea: kwamba kuna huduma nyingine zinazofanana na zile za to Google, zinazowaruhusu watu kutafuta. Baadhi ya mifano ni Yahoo na Bing
