The auditors were provided with appropriate evidence that the processes and controls on the audit dates were consistent with those required by the SAS-SM Standard v5.0 and the SAS Consolidated Security Requirements v4.0, with the following scope:

Subscription Management – Data Preparation:	Out of scope	Subscription Management – Secure Routing:	Out of scope
Data Centre Operations and Management	Within audit scope	Subscription Management – Data Preparation+ (ref. SGP.22):	Out of scope
Subscription Management – Discovery Service	Out of scope		

Notes & Exclusions: This certification (for Data Centre Operations and Management) excludes any management of SM applications or SM application data. The certified cloud region does not provide SM clients with physical access to IT infrastructure. This audit was performed remotely in accordance with the GSMA Covid-19 SAS Audit and Certification Policy. The on-site part of the audit will be performed once conditions permit. This audit used a data centre and service sampling approach. The audit team is satisfied that this approach has provided sufficient assurance of the cloud region's compliance with the SAS requirements.
