2023)

Security Accreditation  
Scheme

# Scope of Certification

To be viewed as part of Security Accreditation Scheme Certificate No: ST-TP-UP-0723

**Production Site:** STMicroelectronics

**Site Address:** 629 Lorong 4/6 Toa Payoh, Singapore 319521

**Supporting site(s) details:** Type: Back-end data transfer and processing systems. Management of cryptographic keys. ST Microelectronics, 190 Avenue Celestin Coq, ZI, Rousset, 13106 France. Expiry date: September 2021

The auditors were provided with appropriate evidence that the processes and controls on the audit dates were consistent with those required by the SAS-UP Standard v9.0 and the SAS Consolidated Security Requirements v6.0, with the following scope:

<b>Generation of data for personalisation:</b>	Not carried out at this site	<b>Personalisation:</b>	Wafer
<b>Management of PKI certificates:</b>	Not carried out at this site	<b>Post-personalisation packaging:</b>	Not carried out at this site

**Notes & Exclusions:** The site does not conduct wafer die packaging operations. Personalised wafers are delivered to a third-party for separation into individual dies and packaging onto reel tape. Added 03/04/20: Due to Covid-19 restrictions on physical facilities access, the site is temporarily managing some systems within SAS scope via remote access to maintain business continuity. Interested parties are invited to contact the site directly for more details. Added 22/07/21 Due to the Covid-19 pandemic travel restrictions the audit was performed remotely in accordance with the GSMA SAS Covid-19 Audit and Certification Policy. An assessment of compliance with requirements that could not be audited fully remotely will need to be performed as part of a follow-up physical audit after Covid-19 related disruption to on-site SAS audits has ended.
