INNOVATION

ROUND 1
DISASTER
RESPONSE

Mobile Data Categorization for Instant Refugee Income

REFUNITE **Lead** Refunite

Malet Labs **Partner** Malet Labs

Country Uganda

HOW IT WORKS

'LevelApp' is a micro-tasking platform for refugees in:

Kiryandongo settlement

Kampala

Rural communities

Refugees can earn a small income by completing machine-learning tasks, like categorising images on their mobile phone.

IMPACT

Greater financial inclusion through mobile technology.
