To M2M or not to M2M?

Our new PAYG solar system

fosera
ME Fosera Bangladesh

ME Fosera BD goes PAYG

lumeter networks

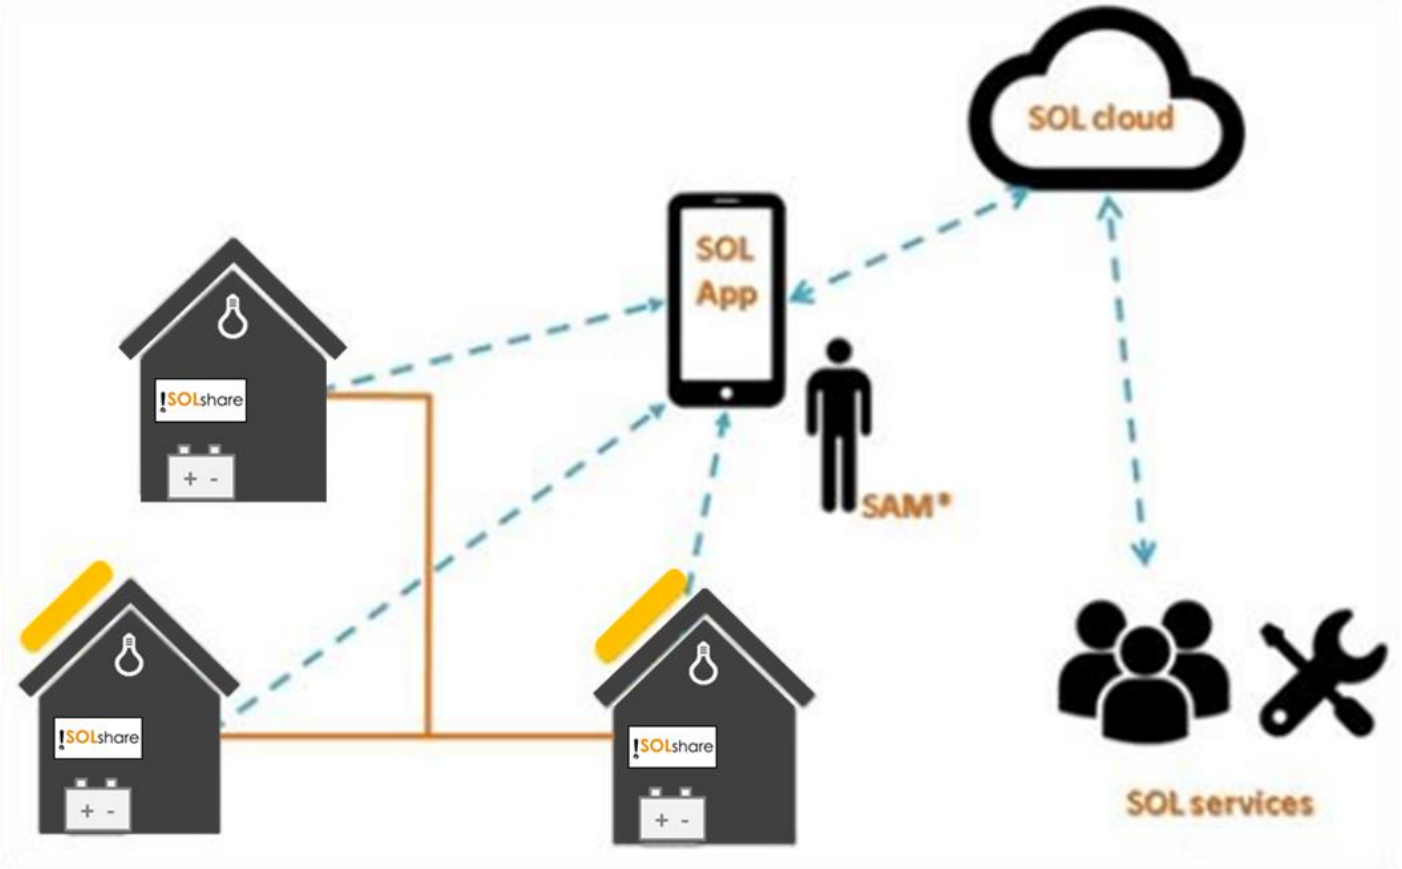

Swarm Electrification

ME SOLshare goes swarm electrification

Peer-to-Peer Energy sharing

SOLshare allows for the creation of a **DC** micro-grid built from the bottom-up

To M2M or not to M2M?

fosera
ME Fosera Bangladesh

- no M2M but token based system
- lower cost and barriers
- payment data = most useful data

SOLshare
Create a network. Share electricity. Brighten the future

- at first no M2M but app based system for SAM with physical interconnection
- lower cost and barriers (up to what scale?)
- no real-time cloud based data

Thank you!
