

# Advancing Mobile Identity Through Field Learnings

**MWC Mobile Identity Summit**  
Barcelona. March 4th, 2026

# Isaac Bess

Managing Director of  
Product Partnerships

# 4 simultaneous trials worldwide

Quantitative analysis of the new process on representative markets.

# What worked

**Enhanced  
user journey**

**Security  
and fraud  
prevention**

**Simpler  
tech  
integration**

**API  
innovation**

# Opportunity areas

**Sandbox  
environment**

**Reach and  
success  
rates**

**Performance  
consistency**

**Automated  
number  
detection**

**CAMARA APIs  
associated with  
'Authorisation and  
Fraud Prevention'  
continues to be seen  
as a top priority**

**Market Demand Analysis 2025**  
GSMA Open Gateway Product Portfolio Workstream

**Why are we  
doubling  
down on these  
categories?**

**Security by  
design**

---

**Frictionless UX**

---

**Scalability**

# Streamlining the Path from **Pilot** to **Production**

**Faster parallel testing:**

**Number Recycle**

**Location Verification**

**Anti Scam**

**TikTok**

**Thank  
You!**
