4th 5G Spectrum & Policy ForumThursday AM, 27th June 2019
Kerry Hotel, Shanghai

The GSMA, along with its partners from GSA, will host the 4th Annual 5G Spectrum & Policy Workshop at MWC19 Shanghai.

Asia is marching ahead on 5G as countries have started to release spectrum, such as the C-band, in preparation for commercial network deployment. At the same time, 2019 will mark a critical milestone as the World Radiocommunication Conference 2019 (WRC-19) will be held to decide on new bands in the millimeter wave spectrum to be made available for 5G.

This year's edition will again bring together governments and industry stakeholders to discuss the latest development and emerging trends, challenges and issues leading up to APG19-5 and WRC-19, 5G spectrum planning, and how governments and industry can effectively work together to achieve the best outcomes for the development of 5G.

08.30-09.00	Registration and coffee
	OPENING KEYNOTES
09.00 – 09.05	Welcome Remarks Joe Guan, Head of Policy, Greater China, GSMA
09.05 – 09.10	Welcome Remarks Andy Hudson, Global Head of Policy, GSMA
09.10 – 09.25	Opening Keynote: Liu Yulin, Deputy Director General Telecommunication Development Bureau Ministry of Industry and Information Technology
09.25 – 09.40	5G for 4 th Industrial Revolution Isabelle Mauro, Head Digital Communications and Telecoms, WEF

26-28 June 2019 • 2019年6月26-28日

	SESSION I: 5G spectrum licensing, as is or new thinking required?
09.40 – 10.25	PANEL SESSION Challenges in 5G awards and licensing Moderator: Cristian Gomez, Spectrum Director APAC, GSMA Panel: <ul style="list-style-type: none"> - Takuya Nakagawa, Deputy Director Land Mobile Communications, MIC Japan - Bui Ha Long, Deputy Director Frequency Planning, ARFM Vietnam - SHEN Shaoai, Adviser, Technology & Innovation, China Telecom - Dean Brenner, SVP Spectrum Strategy & Technology Policy, Qualcomm - Reza Arefi, Spectrum Strategy Director, Intel
10.25 – 10.40	5G spectrum pricing, make or break the 5G momentum? Stefan Zehle, CEO, Coleago Consulting
10.40– 10.55	COFFEE BREAK
10.55 – 11.10	5G licences and commercial deployment in China Huang Yuhong, Secretary General, GTI
	SESSION II: Paving the foundation for the next decade
11.10 – 11.25	WRC-19 status Hiroyuki Atarashi – NTT DoCoMo
11.25 – 12.10	PANEL SESSION APG19-5 and WRC-19 are just around the corner, but can Asia unite to lead the world? Moderator: Peng Zhao, Senior Spectrum Director, GSMA Panel: <ul style="list-style-type: none"> - Zhao Zheng, Director Spectrum Planning, MIIT China - Wan Lei, Head of Wireless Standards & Patents Department, Huawei - Ulrich Dropmann, Head of Standardization, Bell Labs Nokia - Ma Hongbin, General Manager, Network Operations and Maintenance, China Unicom - Hiroyuki Atarashi – NTT DoCoMo
12:10 – 12:15	Closing Remarks Joe Guan, Head of Policy, Greater China, GSMA
12.15 – 13.15	Lunch
