A New Level of Trust, Security and Simplicity
Johannes Jaskolski

General Manager, ZenKey
Assistant Vice President, AT&T
How it Started
It wasn’t always easy ...
…but we got there in the end
The Consumer is Always in Control

- Verified Service Provider
- Clear Context
- Control attribute flow
- Express Consent
Decentralized Identity

• Native Applications can Autodiscover
• Other Flows use Discovery Service
Portable Identity

Joint Venture

Discovery Service

AT&T

Sprint

ZENKEY

T-Mobile

verizon
Venkat Korvi
Head of Product, ZenKey
Product Lead, Verizon
Meet Hareesh
ZenKey Mobile Architect

Taken before he joined the ZenKey team ;}
Registration

- Effortless sign up
- Validated mobile number
- Validated email
- Customer is in control
Authentication

- Highly Secure
- Effortless Authentication
- Trusted Request Origin
- Customer is in Control
Trusted Device

Adding secondary device to your ZenKey
Authentication

Trusted Secondary Device
Authorization

✓ Transact with Confidence
✓ Effortless Experience
✓ Customer is in Control
And that is not all.....
Example: Device Theft
